High Point College is a standard four-year co-educational college offering courses leading to the A.B. and B.S. degrees. The chief concern of the college is liberal education, meaning total training and preparation for effective work which leads to abundant living.

Excellent preparation is available for the future teacher in the following fields: biology, business subjects, chemistry, English, foreign languages, home economics, mathematics, music, physical education, social sciences, and the elementary grades.

In the pre-professional field there is training for the lawyer, the dentist, and the doctor.

The expenses are reasonable. The faculty are among the best in their respective fields, and the physical plant is as good as any among the small colleges of the South.

High Point College is a church-related institution where young women are trained to become directors of religious education and young men are trained for the christian ministry and where christian ideas and principles are taught and lived.

If you are considering entering college next year, please mail the attached card. No postage is required. We invite you to visit our campus and to see the College in operation.
