## *Dedication*

A noteworthy quality of a good teacher is his ability to cultivate friendships with his students. As we look back over our college experiences, we think of a man who truly fulfills both requirements: he is a true friend and an excellent teacher. He came to High Point College in its infancy; he supported it through its trying years; he remains as it enters a new era of increased usefulness. In his friendly smile and admirable character we see embodied the high qualities which symbolize the spirit of High Point College. Cherishing the remembrance of his inspiration to us, we gratefully dedicate the 1952 ZENITH to Professor N. P. Yarborough, our teacher and friend.

## WE'RE IN!

Yes, we're in! On December 6, 1951, at its meeting in St. Petersburg, Florida, High Point College was admitted to full membership in the Southern Association of Colleges and Secondary Schools. This is an objective for which we have been striving intensely for the past two and one-half years. This acceptance into membership means that the College is fully accredited. It means that High Point College is now recognized by all the colleges and universities in the country and that it has as good accreditation as any of them.

In this picture you will see part of the students and faculty who were in a spontaneous mass meeting to show their appreciation of our admission immediately upon my return from the meeting in Florida at which we were fully accredited. At this meeting I thanked, as sincerely as I knew how the Board of Trustees, the faculty and staff, the alumni, the student body, and friends of the College for their fine support and 100 per cent co-operation in helping to get the College fully accredited. Without the full support and co-operation of all of these groups the achievement of full accreditation would have been impossible. To the students, let me say again that I am truly appreciative of your fine cooperation and spirit in this endeavor. You have worked hard in your studies which enabled the College to make a good showing.

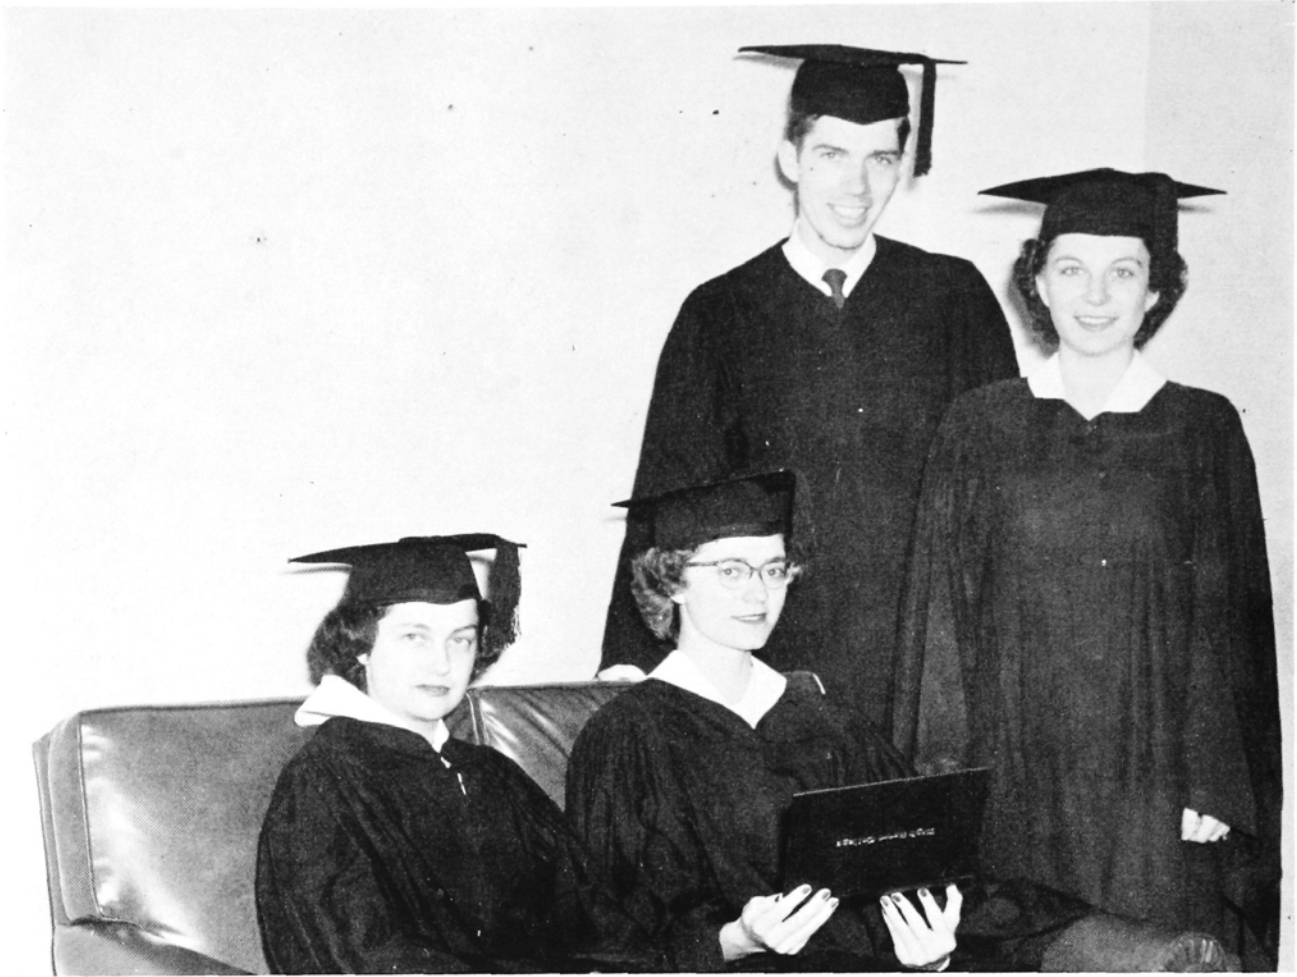

For an even greater High Point College, I am

Yours very sincerely,  
Dennis H. Cooke  
President.

On these pages appear the faces of classmates who have influenced us during a formative period of our lives. To them we express our heart-felt thanks. Our affection for High Point College will increase immeasurably in the years ahead. In our hearts we cherish the memory of unforgettable friends and events. It is, therefore, with mixed emotions of joy and sadness that we leave these halls. Our greatest wish is that we, the class of 1952, in our individual lives will achieve some measure of success and will reflect honor upon our alma mater.

## *Juniors*

As juniors we enjoy a favored position among college classes. The days of difficult adjustment are over; the days of heavy responsibility are not yet upon us. During this year we have had the first real chance to make a lasting impression, and we hope that it has been a good one. We face our senior year with keen anticipation, though with the full realization that it will bring its trials along with its honors and glory. Then at its end will come that long-awaited goal — graduation.

## *Marshals*

One of the highest honors which can be bestowed upon a student at High Point College is to be chosen a marshal, since marshals are chosen from the junior class by the faculty on the basis of campus leadership, academic achievement, and character. These students have justified the confidence placed in them by willingly and efficiently serving at various school and community functions. They are to be congratulated on their excellent service.

## *Sophomores*

We, as sophomores, have become a definite part of the life here on campus. No longer beginners, we have realized the many obligations and opportunities facing us. This year marks the turning point in our career at High Point College. Now we are ready to bend every effort to carry through our new role as upperclassmen, confident that we shall come through with flying colors to our junior year.

## *Freshmen*

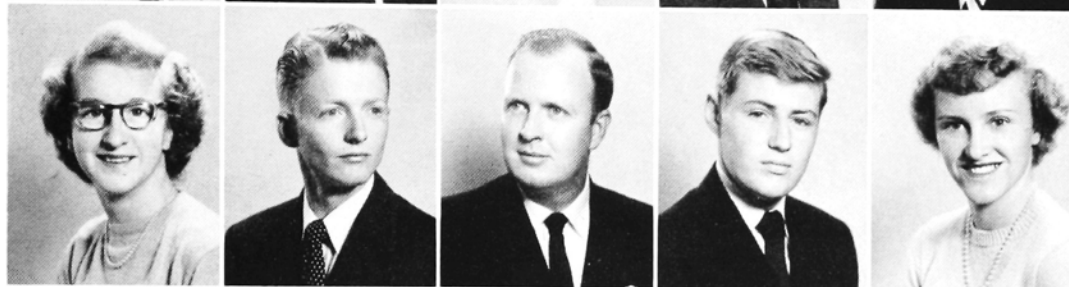

Before coming to High Point College, we freshmen dreaded somewhat the transition from high school to college life. We came through the initiation unscathed, however, and are now firmly grounded in the college customs and tradition. We still have much to learn, but the basic task of adjustment has been accomplished. We look forward with keen anticipation to the years ahead, realizing that their final outcome and value depend on our own determination and high resolutions.

DOUG HOLBROOK  
*President*

Given the task of directing student activities and representing the student body, the student government has carried out its duties with sincerity and integrity. Its leaders were elected by popular vote of the students and have endeavored to fulfill the trust placed in them.

The success of this group can be attributed to a spirit of warm friendship and hearty co-operation. They have worked together under both pleasant and difficult circumstances, keeping always in their minds the thought, "We were elected to do a good job. Let's do it."

# The Zenith

EDITORIAL STAFF

WILLIAM PENFIELD  
*Editor*

MARY ALICE TESH  
*Associate Editor*

It all began last spring when we, as the new ZENITH staff, found the 1952 ZENITH dropped into our laps. We did not realize the immensity of the task until we jumped into the harness this fall. It has meant scheduling and re-scheduling pictures, begging for snapshots, drawing hundreds of blocks on the dummy, taking picture after picture, typing endless pages of copy, and doing all the other things that go into the making of an annual. But we feel that the sweating, wondering, worrying, and running have been worth the reward—the 1952 ZENITH.

At times we felt like giving up completely. It was a blow to have our editor, Bill Penfield, leave school suddenly because of illness, just three weeks before our deadline. The staff had become attached to Bill because of his dependability and contagious good humor. At this time of emergency the entire staff redoubled its efforts with the determination to make this ZENITH the best—for Bill.

Greg took complete charge of the sports; Jalia lived up to her reputation in the artistry of her drawings. With Audrey at the typewriter we were certain that the copy would be just right. Sue spent hours behind closed door working with sorority representatives on their pages. You probably saw Bill Hipps anywhere and at any time taking pictures for the ZENITH.

## BUSINESS STAFF

GARLAND WAMPLER  
*Business Manager*

LUCILLE CRAVER  
*Assistant Business Manager*

Two members of the staff, Lucille and Bill Hunter, do not know whether they are members of the business staff or the editorial staff. When Bill Penfield had to leave, they jumped in and did a wonderful job of helping to carry on the work which Bill had begun. The staff expresses its appreciation to these two and to all others who, at the last minute, came in to help save the day for the ZENITH.

The editorial staff has been encouraged in its struggle by the wonderful success of the business managers. Garland and Lucille, working with an efficient staff, gathered a record number of advertisements. The staff sold several hundred dollars more ads than has ever been sold in the history of the ZENITH. Our hats go off to them!

To Mr. Oliver Smith of Edwards & Broughton, to our adviser, Miss Idol, to our photographers, and to everyone who has helped us to meet our deadline, we give our everlasting thanks. The show must go on! The ZENITH must go out; And it did, with your help and co-operation.

## H. P. College Approved by Southern Association

**Dr. Hinshaw Reports on Trip**

Dr. C. R. Hinshaw, Dean of Instruction, who accompanied Dr. Cooke as a representative of High Point College at the recent conference of the Southern Association of Colleges, says the trip was completely satisfying from beginning to end. "We could not have expected a more pleasant reception from any committee than we received in St. Petersburg," Dr. Hinshaw remarked. "I personally received considerable benefit from (Continued on Page 2)

### To the High Point College Students and Faculty:

It is with a great deal of personal satisfaction and pride for High Point College that I am able at this time to tell you that High Point College was fully accredited by the Southern Association of Colleges and Secondary Schools at its meeting in St. Petersburg, Florida, on December 6. This recent accreditation by the Southern Association makes the accreditation of the College complete. In other words, High Point College now has as good accreditation as any of the undergraduate colleges in the country. As a result of diligent work and prayer by the faculty, the administration, the students, and staff of the College, the accreditation has been granted. I am taking this opportunity to thank you for your part in this accomplishment. I am taking this opportunity to thank you for your part in this accomplishment. I am taking this opportunity to thank you for your part in this accomplishment.

### Students Welcome Dr. Cooke With Rousing Cheers

Dr. Dennis H. Cooke, President, has brought distinction to High Point College and to himself in ten years of successful leadership which has earned the respect and admiration of all members of the Southern Association of Colleges.

With the assistance of Jerry Jarvis, Associate Editor, and Betty Clark Dillon, Business Manager, Dr. Cooke, showing deep emotion, acknowledged the warm reception given him by expressing his gratitude to the many persons who have contributed to the realization of a dream which began with the founding of the College 26 years ago.

**Mr. Varborough Sees H.P.C. Come of Age**

"Hearing the College read as being accredited was a very dramatic moment. I have been here 26 years and I felt that High Point had really come of age," said Mr. N. F. Varborough, registrar, on his return from St. Petersburg, where he, along with Dr. Cooke and Dr. Hinshaw, represented H.P.C. in the meeting of the Southern Association of Colleges. "I now feel that the College has more to offer its students. As a result, students will have greater opportunities for service," he stated. Mr. Varborough was particularly interested in the meeting of Registrars of the Southern Association, Tuesday, Dec. 4. "Since that was the first time I had attended, I was interested in comparing the Regional Association with the North Carolina Association of Colleges," he remarked. He says he came to the conclusion that North Carolina was "really a leader in the educational field."

### Goodwill Begins on the Highway

Does it seem inappropriate that we should dedicate our Christmas issue to the cause of safety on the highways? Some have said that warnings of danger are not in keeping with the beautiful message of the angels, "Peace on earth and good will toward men." Yet these are precisely the sentiments expressed in such warnings.

With the proper attitude of "goodwill toward men," we would not have to be reminded to guard the safety of ourselves or others. Goodwill is a positive thing; it does not mean just wishing, but actively promoting the welfare of others.

The man who considers the happiness of his family is not going to take foolish risks that could end in tragedy for himself or his family. He will drive as carefully when he is alone as when his family is with him. He realizes that an accident for him can mean an accident for his family.

A man of goodwill is not only concerned with the happiness of his neighbors, but also with the happiness of his friends. He is truly a man of good time he gets into the of the tremendous responsibility of an operator of a powerful car can bring instant death to pedestrians.

The first concern of a driver should be for the happiness of his friends. What kind of Christmas can it be if one has been mangled or killed on the part of some irresponsible driver? The exception of a few freak accidents, most accidents are caused by human carelessness.

It is inconsistent that we are confronted with injustice or violence in our own world should tolerate violence against innocent people on our own highways. The statement, "Goodwill begins with a joyous holiday season." Let's make our slogan—"Goodwill begins with a merry Christmas and a safe highway."

### Letter to Santa Claus

Dear Santa Claus:

We have tried to be good boys and girls this year, but Santa, if you have ever played hide and seek in Roberts Hall, trying to find both the photographer and the subject whose picture you want, or if you have checked the names of a certain student is in, and then waited for a certain student to appear, only to find he has taken his rest and understand why we have been on the list at times.

We are grateful for the switch in the campus, but what we need, Santa, is a little more of the usual fruit, nuts, and candy—but please don't overdo it. In the meantime, we will just stay in the foyer of Roberts Hall and look for you. We will be looking for you.

A Merry Christmas to You!

meetings of academic deans held in the Palm Room of the Roberts Hotel attended by deans from colleges all over the South. These meetings made decided contributions to the problems of education in this country, Dr. Hinshaw observed.

As further evidence that Hinshaw's visit was not without purpose, he said that he had seen some of the most impressive work in a "Jungle Cruise" on the Little Manatee River where oysters grow on Mangrove trees, confirming the truth of the story once told by Robert Ripley on one of his weekly radio programs.

By GREG MERHIGE

As the curtain rises on the hardwood of the Harrison Gymnasium, we find Coach Bob Davis stressing tip-top conditioning to his "Panthers" and "Kittens" alike.

The season, as we go to press, is in its infancy with the team just overflowing with talent. The Panthers face a hard and heavy schedule for the season, against such teams as Union Kentucky, Milligan College, The Citadel, and many others. Facing teams of this caliber, one must have a team in order to step out onto the floor.

With boys such as "Easy" Ed Sueta hooking from the key, Bobby Davidson play-making, Tony Lisk rebounding, Paul "Abbie" Pryor hustling, and Jesse Joyce capable of hitting the cards for double figures, we're sure we have that worthy team.

Many times it has been stated that a club is just as good as its reserves, and we can say with pride that we have these reserves right down the line. Coach Davis believes, that if a man's good enough for a uniform, he's good enough to see action. Too, the "Loose as a Goose" Sonny "Flip" Thornton will be doing his part in adding to the string victories of the Panthers. Along with Sonny will be Conrad West, who can be counted on to hit the scoring column, easy going Bob Popp, aggressive Billy Hicks, rebounder, Harold "Slick" Sykes, Ken "Baby" Frazier, and scrapper "Laughing Boy" Gene "Yank" Royce.

Coach Davis, a student of Adolph Rupp, has introduced to the boys the "Rupp System" of play. Every game the Panthers use this system with great hustle, and they make every play count. The Coach has stressed that not a step can be wasted; and as we all know, none is.

In spite of blisters and sore feet from daily drills, the boys are working hard and improving each day. We feel confident as the season rolls on that we shall have one of the top teams in the conference, if not the number one team.

When the curtain falls at the end of the season and the whistle blows, High Point College will add another victory to its records, and we shall once again take off our hats to a great coach and another great team.

Bob Davis, the new mentor for this year, came to High Point last season as head line coach for football and assistant basketball coach. Bob, a graduate of the class of 1950 from Georgetown University, Kentucky, knows how to process the qualities that make a fine coach.

We, the students, want you to know, Coach Davis, that we're glad to have you with us.

Dear Bill,

We made it! At last the work on the ZENITH is complete; in a few minutes it will be on its way to the printer. We wish you could have been here to help tie the string around the bundles which envelop so much hard work.

We have missed you constantly in the past three weeks as we came down to the final rush to meet the deadline. So many times we wanted to say, "Bill what do you think of this?" or "Is this all right?" But we had to make those decisions ourselves, and we hope that they meet with your approval, that we have put the finishing touches on a yearbook of which you can be truly proud.

On this day we realize as never before how much we owe to you; you laid the foundation for all our work; you inspired and spurred us on. Bill, as far as everyone is concerned, you will always be the Editor-in-chief of the 1952 ZENITH.

The student body joins with the staff in voicing their appreciation for what you have done and wishing for your continued happiness and complete restoration to health in the coming year.

Sincerely,

*The Zenith Staff*

## EDUCATED NOW?

To be sure you are, with a prized diploma to show for it! Congratulations on all those tests you've successfully passed.

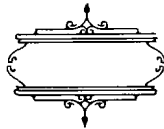

Now life is going to give you the supreme test of **thinking for yourself**. You'll hear that the political planners can manage everything for you, and give you a "secure" life. If you think that one through clearly, you will see that the most secure people you could find are the ones in jail.

You'll probably hear more about your "rights" than you do about your responsibility. Yet your teachers have warned you that **every right carries with it an obligation equal or greater**.

THERE IS A FUTURE IN

## TEXTILES

The world's oldest manufacturing industry—textiles—is today one of our most exciting and challenging industries, producing revolutionary textile products with qualities which men have sought for centuries. Man-made fibers, new products of the chemist's test-tube, have been a major contributor to this textiles progress.

A small textile producer in 1923, Burlington Mills believed in the future of rayon—an early man-made fiber. In the past 28 years Burlington has become a leader in the development and production of beautiful, durable and high-quality filament, spun and knit synthetic fabrics. From one plant with approximately 200 employees, our Company has grown to include 73 manufacturing plants in 43 communities of eight states and four foreign countries. Employing 34,000 people, Burlington is today the world's largest producer of synthetic fabrics, and it is a recognized leader in the designing, development, research, merchandising and fashion fields as well as manufacturing.

If you are a young man or woman looking for a place in industry, we think you should consider textiles—and Burlington. It can hold a bright future for the person with the willingness to learn, ability to work, and the natural interest in this fascinating and competitive field.
