Purpose

Mindful of the Christian idealism of its founders, the nature of the community in which it is situated, and the needs of modern men and women who come to its doors, High Point College endeavors to provide a sound, progressive educational program making prominent the following objectives:

RELIGIOUS. To develop in students a Christian philosophy of life through a wholesome spiritual atmosphere: by encouraging worship and the study of the great literature of the faith; and by pervading all instruction with a reverent spirit of the Master Teacher in conformity to the motto, *nil sine numine*—nothing without divine will.

COMMUNITY. To serve the community by providing technical instruction from laboratory, library, and lecture hall; by furnishing artistic, cultural, and literary programs for the public; and by extending practical leadership into the civic life of the surrounding area.

SCHOLASTIC. To stimulate the love of learning; to insist upon thorough, useful knowledge; to develop resourcefulness and intellectual integrity; and to cultivate the ability and disposition for creative thinking in the American tradition of individual freedom.

CULTURAL. To instill in students a deep appreciation for the beautiful and excellent in human achievement; to cherish personal dignity; and to acquire those amenities which make for harmonious and graceful living in contemporary society.

Historical

High Point College had its origin with the Methodist Protestant Church in North Carolina. It is now under the sponsorship of the Methodist Church. A local board of trustees holds title to the properties and directs the operations of the institution.

The late Rev. J. F. McCulloch, D.D., a native of Guilford County, N. C. and a graduate of Adrian College, Michigan, became imbued with the idea of a college, related to the Methodist Protestant Church, in the State, and promoted that idea throughout the conference district.

After many years of effort to instill his idea in the church constituency, the annual conference in 1920 voted to go forward with the project. This action was largely inspired by a conditional legacy in the will of a layman, Mr. J. C. Roberts of Kernersville, to the amount of ten thousand dollars. This gift never materialized because of the time limitation and the fund was invested to educate young men for the ministry. However, in honor of the generous intent the administration building, when erected, was named Roberts Hall.

Following the conference of 1920, a drive for funds was actively and successfully made in the churches. This campaign was directed by a committee, consisting of Rev. R. M. Andrews, Rev. J. E. Pritchard and Rev. L. W. Gerringer, which was appointed by the conference.

A building committee composed of Mr. F. R. Harris, Mr. R. F. Williams, Mr. J. Norman Wills, Mr. R. H. Brooks, Mr. J. S. Pickett, Rev. J. F. McCulloch and Rev. R. M. Andrews, was named and empowered to locate the college and decide on the type of architecture. The decision was that the college be built at High Point and of colonial design.

The cornerstone of the administration building (Roberts Hall) was laid June 29, 1922. Following closely the erection of this building, a dormitory for girls (Woman's Hall), a dormitory for boys (McCulloch Hall), and a heating plant were completed. On September 15, 1924, the college opened for work with one hundred thirty-two students, of whom fifteen were sophomores coming by transfer from other institutions.

LOCATION

The city of High Point donated fifty acres of ground and contributed the sum of one hundred thousand dollars, through a citizens committee, and so evidenced its desire for the educational and cultural advantages that a college can contribute to a community.

High Point, Guilford County, North Carolina, a city of approximately fifty thousand inhabitants, is in the Piedmont section. It is about half-way between the Atlantic Ocean and the Blue Ridge Mountains, on the Southern and High Point, Thomasville and Denton Railroads, and on the National Highway between Washington City and Atlanta, Ga.*

High Point is a rapidly growing city in one of the most beautiful and healthful sections of the State. The progressive spirit and cultural tone of High Point find attestation in the many civic, service and social clubs found here. The college finds an ideal setting in the promise of the Piedmont.

ADMINISTRATIVE

The Rev. R. M. Andrews, D.D., was chosen as the first president. He had served as field agent in the campaign for funds and was a former president of the

*Within a radius of a hundred miles there are approximately three million people.

Annual Conference. To him, therefore, was committed the task of organizing the college and collecting the building pledges. Dr. Andrews resigned in February, 1930, to take effect the following June.

The Rev. Gideon I. Humphreys, A.M., D.D., L.L.D. was selected by the Board of Trustees to fill the vacancy and began his work as president in June, 1930. Dr. Humphreys, a former president of the Maryland Annual Conference, was President of the General Board of Christian Education from 1924 to 1930, resigning therefrom on his election to the presidency of the college. Dr. Humphreys resigned as of June 1, 1949.

Dr. Dennis H. Cooke, A.B., M.Ed., Ph. D., assumed the duties of the presidency on June 1, 1949. He was for a number of years professor of school administration at George Peabody College for Teachers, then President of East Carolina Teachers College, and for the last two years before coming to High Point College he was Head of the Department of Education and Director of the Summer School in the Woman's College of the University of North Carolina.

CAMPUS AND BUILDINGS

The years from 1930 to 1944 witnessed the erection of Harrison Gymnasium (1932-33), The M. J. Wrenn Memorial Library (1936-37), the completion of additional rooms on the third floor of Woman's Hall (1937), The Albion Millis Stadium (1936-38), the baseball field (1938-39), the purchase of three residences—the president's home (1931), a professor's home (1937), a Home Economics House (1939), and a Professor's Home (1942), erection of a Student Center Building (1941-42), completion of Barracks space in McCulloch Hall (1943-44), Field house at stadium, the gift of the American Business Club of High Point (1947).

All of the permanent buildings are fireproof and modern in every respect. They are constructed of red burnt brick, slate roof, hollow-tile partitions and con-

crete floors overlaid with hardwood, except in the corridors, where there is a composition effect.

Roberts Hall—Houses the administrative offices, recitation rooms, laboratories, and an auditorium. In the basement is a dining room, a thoroughly equipped kitchen, an office for the dietitian, a storeroom for groceries and a storeroom for chemicals.

Woman's Hall—Dormitory for young ladies, with corridors running through the building, and main entrance in the center. The rooms on two floors are arranged in suites of two with a bathroom between, a large closet and hot and cold running water in each room. Four girls may occupy a suite and a total of one hundred and sixteen students be housed in convenience and comfort. There are spacious club rooms on all floors.

McCulloch Hall—Dormitory for young men, is arranged in sections. There are ten sections with eight bedrooms to a section. In each section are two bathrooms with showers, lavatories, and toilets. One half of third story has been completed in barracks style. Two hundred is the capacity of this dormitory. In the center of the building, on the first floor, is a large club room with open fireplace. A reading room, for general use, is found on this floor.

M. J. Wrenn Memorial Library—erected in 1937, is the gift of Mrs. M. J. Wrenn, of High Point, in memory of her husband, the late M. J. Wrenn. The main floor of the three story building provides space for eighty-five readers in the general reading room, open stacks, office of the librarian, work room, and cataloging room. Storage stacks occupy the third floor, and at present the first floor is used for class instruction. The entrance foyer is used for exhibits of creative work and treasure collections of students and faculty.

High Point College Days are Happy Days

Special book collections are being organized for the browsing alcove, the Methodist historical collection, and books on international affairs sponsored by the International Relations Club.

Harrison Gymnasium—was named in recognition of the persistent efforts of Dr. N. M. Harrison, towards securing gifts of materials and moneys for such a building. This building in design and structure will meet all needs for many years. It is of red brick veneer, with a frontage of 114 feet and a depth of 105 feet. There is a regulation court for basketball, and the seating capacity is thirteen hundred. There are offices for coaches and dressing rooms for men and women on the first floor. In the basement are sleeping quarters for visiting teams, showers, toilet facilities and athletic equipment rooms.

The Power Plant—Erected with a view to doubling the present number of buildings. Concrete conduits run from it to the different buildings, thus furnishing heat at small loss from radiation. All the buildings on the campus are heated from this plant.

Laboratories—These are temporarily located in the basement of the Administration Building. Necessary equipment for teaching chemistry, elementary physics, biology, and comparative anatomy, are found here.

Student Center Building—Erected 1941-42—is north of Roberts Hall and houses the book store where supplies needed by a student are sold. A modern soda fountain, candies, milk, sandwiches, college jewelry, etc., are found here. An office and store rooms are also on the first floor. The second floor is one large recreation room, known as Alumni Room named in recognition of the gifts from the alumni towards the paneling and furnishings.

President's Residence—A two-and-a-half story brick house, modern in all its appointments, and located at 821 West College Drive overlooking the college campus.

Professor's House—A modern two-story brick house located at 901 Montlieu Avenue.

Professor's House—A nine room two-story house located at 911 West College Drive, facing the college campus.

Home Economics House—A ten room, two-and-a-half story house, located at 909 West College Drive, facing the campus.

Professors' House—A modern duplex house located at 821 Circle Drive.

The Stadium—Located to the north of the campus, between West and East College Drives. A football field, a quarter-mile track and 220-yard straight-away, and a concrete-steel grandstand seating over 3,000 people, give the college one of the finest stadiums among the small colleges of the South. Portable bleachers seating 3,000 were added in 1947. A new and modern field house erected by the American Business Club in 1947 adds greatly to the facilities of the stadium.

A second field, adjoining the stadium proper, provides for baseball, soccer, and football practice field. A grandstand seating 700 people overlooks the baseball diamond.

A citizens committee, appointed by the school commissioners, has the custodianship and supervision of the stadium. Applications for all use must be made to the committee through the president of the college who is executive secretary of the committee.

EAST CAMPUS and BUILDINGS

Methodist Union brought about a merger of the orphanage work of the Western North Carolina Conference. As a result the property which belonged to the Trustees of the Children's Home of the (former) Methodist Protestant Church, situated one mile from the eastern boundary of the college campus, was deeded to the college.

Approximately ten acres surrounding the buildings on which are fine shade trees and shrubbery, will be maintained as a campus. It has a frontage of about one thousand feet along the north side of the Greensboro-High Point Highway. There are two main buildings and a residence on this campus and several smaller buildings.

J. M. Millikan Hall is used to house married veterans.

Penny Hall is used as a dormitory.

B. N. Duke Cottage is used as a faculty residence. This cottage was erected through a legacy in the will of the late Benjamin N. Duke of Durham, N. C. This is an eight room two and a half story house, new and modern.

FUTURE BUILDINGS

When it becomes necessary to enlarge, it is the purpose to add one hundred feet to each end of Roberts Hall, thereby providing additional classroom and laboratory space. Back of Roberts Hall and connected with it will be added a wing which will provide the auditorium, a larger space for the dining room, and the Music Department. Back of each dormitory, allowing space for an ample inner court, will be erected two additional dormitories. In front of Roberts Hall and located near the highway will be the college chapel.

DORMITORY LIFE

The dormitories and college dining room will be open to freshmen and upperclassmen respectively on the days

indicated for the registration. (See calendar.) Any student coming to the college before the date for his or her registration must pay at the rate of 50 cents a night for room and \$1.00 a day for board. Arrangements for the same must be made at the office.

No student has a right to any room in the dormitory until he or she has been assigned to said room by a college official. This room must be vacated upon the day the student leaves college, whether in the college year or at the end of the semester. No student can change his or her room without permission from the college administration.

Any student found changing electric wiring, or installing extra fixtures will be disciplined.

Students who are not living at home are required to live in the college dormitory. If circumstances make it necessary for them to do otherwise, they must get permission from the college authorities. Students failing to comply with this request may be asked to withdraw from the institution at the discretion of the authorities.

It is strongly recommended to parents and guardians that all applicants for admission to High Point College be successfully vaccinated against smallpox and typhoid fever before they enter.

High Point College reserves the right to exclude any student whose conduct or academic standing it regards as undesirable. In all such cases fees due or paid will not be remitted in whole or in part; nor shall the college or its officers be under any liability whatsoever for such exclusion.

The college reserves the right for a member of faculty or administration to enter and inspect the rooms of students at any time during the year.

Students occupying rooms in the dormitory are held responsible for any damage done their rooms as well as any damage they may do to other college property.

CONDUCT OF STUDENTS

In the interest of good morals, gambling in all forms, drunkenness, and all disorderly conduct on the part of students or their visiting friends are prohibited. Students refusing to abide by this rule will be asked to withdraw.

This rule applies to a student or student group, away from the campus, representing the college in any manner whatsoever.

Every form of hazing is prohibited. Students found guilty of hazing will be punished as required by the laws of the State.

WHAT STUDENTS SHOULD BRING

The college furnishes the necessary furniture for all rooms in the dormitories. The students provide their own linens, blankets, pillows, curtains, towels, drinking glass, knife, fork, and teaspoon. The knife, fork, and spoon are for use in room, as no silver is sent out of dining room. No meals are served in rooms except in cases of sickness.

FRESHMEN RULES

1. All young women are subject to the regulations made by the Women's Student Council and approved by the House Committee. Such regulations will be found in the dormitory rules.

2. In addition to the usual regulations which apply to all young men, freshmen residing in the dormitory are subject to some supervision in order that they may be helped in adjusting themselves more easily to the college program. As an incentive to higher scholarship, study hours are required certain evenings each week throughout the year. Personal interviews are held from time to time by the Counsellor with each student to discuss his personal and academic problems. The administration endeavors to cooperate closely with the homes, and communicates with them from time to time concerning the scholastic status and general progress of the student.

ABSENCES FROM CAMPUS

Regulations pertaining to such absences will be covered in the house rules of the respective dormitories.

CHURCH ATTENDANCE

High Point College was founded through the vision and faith of Christian men and women. Our earnest desire is that this institution shall maintain recognition as a Christian college. We require no religious test of any students; we have no wish to influence any student as to a denominational preference. In this sense the college is strictly non-sectarian.

We believe, however, that the spiritual life is enhanced by religious observances, and that there is both religious development and Christian culture to be obtained by attendance on church worship. Dormitory students, therefore, will be required to attend some church in High Point on Sunday mornings. At the time of registration all students must state with what denomination they hold church membership, and students having no church membership must indicate a preference for some local church. The college administration earnestly desires to foster in the students a sense of loyalty to the church of his or her affiliation and hopes that parents and guardians will cooperate in encouraging students to worship at the church of their own faith.

Supervision of church attendance is vested in the resident Counsellors.

General Information

RATING

High Point College is rated as an A grade institution by the State Department of Education of North Carolina, and enjoys an interchange of credits with all other colleges and universities of the State.

GRADING

The following system of grading is used:

A—Excellent.

B—Good

C—Average.

D—Passing.

E—Condition.

F—Failure.

I—Incomplete.

X—Failure because of excessive absences.

For the purpose of finding averages, honors, etc., the following points are assigned to the grade letters: A course graded "A" shall count four honor points for each semester hour, "B" shall count three, "C" shall count two, and "D" one.

On November 15 and March 15 a list of all freshmen who are doing unsatisfactory work shall be handed to the Dean of Instruction. This is done with the hope of stimulating these students to better work.

Mid-semester grades shall be handed in for all students. Students who, at this time are not passing their work will be interviewed by the Dean of Instruction in the interest of their courses, and a statement of their scholastic conditions, along with a record of all absences from class, will be sent to their parents. The Dean of Instruction and the instructors will advise the students from time to time concerning their school work.

All grades are mailed to parents at the end of each semester. Only notices of those who appear to be failing in their work will be sent to parents at each mid-semester.

COUNSELLOR SYSTEM

An innovation has been made in the matter of student discipline supervision. There are no deans of men and women. A counsellor, one each for men and women, is appointed for the freshman, sophomore, and junior classes. These counsellors work in cooperation with the Student Council. Their objective is to help the individual student in adjustment and progress, and they seek to be helpful in all phases of the student's life.

LOANS

At present there are several funds from which loans are made, without interest charge, to students during their stay at College. They are as follows: The Masonic, the High Point College Student Loan Fund, the Pickett Montgomery, the Ernest W. Teague, the G. F. Ivey, the W. T. Powell, the C. C. Cranford, the I. S. Faust, the E. Vera Idol, the High Point Woman's Club, and the W. C. Hammer Memorial Fund.

THE PENNY BROTHERS BENEFACTION

In recognition of the interest of Mr. George T. Penny and Mr. James C. Penny in the work of the former Methodist Protestant Children's Home for so many years, and of their generous donations to enable the Home to carry on its good work, and as an expression of appreciation for such interest and material aid the college makes available, each year, the sum of \$1,500 as a self-help fund to aid and assist young men from the Methodist Children's Home of Winston-Salem who matriculate at High Point College and other aid, over and above this sum, for the children of the Methodist Home at Raleigh; or secondly, to other worthy and needy children, if such monies are available.

SCHOLARSHIPS

The Mary Lewis Millis Scholarship—Established by her husband Mr. H. A. Millis. This scholarship pays

the complete college expenses, or as much as is needed, of a worthy and needy High Point College student.

The Perry Scholarship—Established by Mrs. Betty S. Perry in the amount of \$100 annually to be awarded to a worthy and needy woman student.

The Ida M. Alexander Scholarship—The income on \$2,000, invested by Misses Minnie and Mary Alexander, Mrs. Mina A. Long, and Mr. A. E. Alexander in memory of their sister, available each year to some student selected on recommendation of the president of the college. A preference is given descendants of the United Daughters of the Confederacy.

The American Association of University Women Scholarship—The High Point Chapter of the American Association of University Women gives a scholarship of fifty dollars each year to a High Point girl in the senior class who has been recommended by a committee from the chapter and approved by the president of the college.

The S. K. Spahr Memorial Scholarship—The income of \$1,000 to be used as scholarship at the discretion of the Administration.

The Davis Street Methodist Church (Burlington) Memorial Scholarship Fund—The income from \$2,000.00—memorial for four boys from this church who gave their lives in World War II—preference to be given to students coming from the above church.

The Carr Methodist Church (Durham) Memorial Scholarship Fund—The income on three thousand dollars invested by members and friends of Carr Methodist Church, in loving memory of their fallen comrades, and in honor of the men and women who served so heroically on the field of battle, in both World Wars I and II, is available each year to a student selected or recommended by Carr Methodist Church.

The Kittrell Scholarship—Established by Mr.

E. C. Kittrell in memory of his wife. The income from \$500 to be awarded to ministerial students.

ENDOWMENT SCHOLARSHIP

Living Memorial Scholarship Fund of Yanceyville Charge, in memory of Bryant Loftis, George Wilson and Herman Moore, who gave their lives in World War II and in honor of all of their men who served in the recent war. The income from \$1,029 (to be later increased to \$4,000) to be used for a student from this charge designated by it.

Candidates for the ministry of the Methodist Church, children of ministers of the Methodist Church, and children of all regularly ordained resident pastors of the City of High Point, will be granted a concession on tuition charges to the amount of one hundred dollars. All candidates for the ministry of other denominations will be granted a concession on tuition charges to the amount of Fifty dollars.

All ministerial candidates must be recommended by the proper denominational authorities and present such credentials to the college office before the concessions above mentioned will be credited. These candidates must also sign notes for the amount of the concessions, agreeing to assume indebtedness for all such tuition charges remitted, the same to be paid the college in event the candidate does not enter the ministry.

Graduates of the Methodist Orphanages of North Carolina will be granted free tuition. Graduates of other Orphanages in North Carolina will be given consideration on application.

PRIZES—AWARDS

Orator's Medal—This medal is awarded to the young man of the senior class who delivers the best oration in a contest held during the commencement season. It is given by Mr. S. Robinowitz.

Charlotte M. Amos Medal—Awarded to the young lady of the senior class who is the winner in an essayist contest held at commencement.

Minnie P. Harrell Medal—Awarded to the student making the most improvement in piano during the year.

May L. Tomlinson Medal—Awarded to the student showing the most progress in voice for the year.

C. L. Amos Medal—Given to the best all-round student among the young men.

Mr. S. P. Montgomery provides a medal for the best all-round student among the young ladies.

ATHLETICS

Believing that properly conducted athletics train the participant in initiative, self-control, and cooperation, and have a wholesome effect in developing college spirit, it is the policy of High Point College to encourage such athletics. Care is taken, however, in the scheduling of games, and in permitting students to take part in them, to see that such participation does not in any way interfere with their school work. All athletics are under the control of the Athletic Council. All games are scheduled by this council and no contract shall be regarded by the college as valid which has not been signed by the faculty or graduate manager. The Council also awards all athletic monograms and has general supervision over athletics.

The following rules governing athletics have been adopted by the faculty:

1. At the beginning of every season the coach shall submit to the faculty manager a list of all players who are candidates for positions on the team, and he in turn shall submit these names to the Athletic Council to determine eligibility. Any player found deficient in academic work during the season will be debarred from all athletic contests until such deficiency is removed.

2. No one team may be absent from the college during its playing season for more than ten school days.

3. No student shall represent the college in any game who is not a bona fide student. A bona fide student is one who is passing satisfactorily at least nine hours of college work.

4. No student who has passed less than nine semester hours of work during the last semester that he attended the college shall participate in any form of athletics.

5. High Point College is a member of the North State Intercollegiate Athletic Conference and will enforce all of the rules passed by the Conference.

College Organizations

RELIGIOUS GROUPS

The Methodist Student Movement—This organization, affiliated with the denominational program of the Methodist Church, serves the denominational life of the campus. Regular meetings are held each week in the College Chapel, and various religious projects are promoted throughout the college year. Membership in the organization is purely optional, but all students are invited to share its program of activities.

Ministerial Association—The young men of the college who are looking to the ministry as their life work are banded together for mutual fellowship, professional likemindedness and practical skill.

MUSICAL GROUPS

The A Cappella Choir—Membership in the choir is determined on a competitive basis. A member must be punctual and regular in attendance to maintain standing. Seventy-five to one hundred students comprise the number finally selected, and the choir is under the direct supervision of the music department.

The Band—The College Band occupies an important place in the life of the institution, providing music for the athletic contests and other events throughout the college year. Formal concerts are given from time to time. Students possessed of musical talent and experience may aspire to membership in the organization. Students should bring their own instruments whenever possible. The uniforms are furnished by the College.

ORGANIZATIONS, CLUBS, AND PUBLICATIONS

Departmental Clubs—The several departments of the faculty encourage and foster such groups under the direction of the departmental heads. The aim is to increase the interest and general knowledge of the

student in the particular field. Research and extra-curricular activities engage the attention of those concerned.

The Forensic Council—The college is a charter member of the North Carolina Intercollegiate Forensic Association. The local council has two faculty members and four students in its membership. This council determines participation in intercollegiate debates, and regulates inter-society debates and oratorical contests.

Social Clubs—There are a number of social clubs among both the men and women students. Each club has one or more faculty advisors and sponsors.

Publications—The students direct the publication of the HI-PO, the newspaper, and the ZENITH, the college annual. The staff of the HI-PO is elected from the student body, while the staff of the ZENITH comes from the senior class. Both of these publications are supported by allotments from the Student Activities Fee and from general advertisements, without extra cost to the student.

The administration issues the Catalogue annually.

Alumni Association—The graduates and former students of High Point College are banded together in a voluntary organization for the purpose of maintaining mutual association and fostering the best interest of the institution. The Alumni Association is of service in extending the usefulness of the college along various lines. A regular place is given to the association on the commencement program each year, and many former students return to the campus for the alumni activities. Through the Registrar's office and the college publications, effort is made to keep in touch with all graduates, as the college is eager to be of service to all former students.

General Regulations

REGISTRATION

Students are admitted to High Point College through the usual process of registration. Before a student can proceed with registration, a full and satisfactory record of the previous work done by the applicant must be filed in the Registrar's office. To avoid inconvenience and delay at the time of registration, the candidate is urged to have his or her high school credits forwarded to the college as soon as the preparatory work has been completed.

A set time is given for registration of freshmen and upperclassmen. The days are designated in the calendar. (See page 5.) Students may not register for full credit later than 15 days after classes begin.

Every student must report at the Registrar's office within twenty-four hours after he reaches the college campus. Failure to do so may be regarded as sufficient reason for denying the applicant admission.

Every student, at the time of registration, must present a physician's certificate stating that he or she has had a physical examination within the past thirty days and that said student is in general good health and fit for participation in physical education. A student not presenting such certificate will be examined by some High Point physician named by the college and at the student's expense.

The college reserves the right to deny admission to any applicant who, in the judgement of the college authorities, for any reason should not be admitted.

ADMISSION TO FRESHMAN CLASS

Graduates of accredited high schools are admitted without examination to the freshman class. Graduates of non-accredited high schools must present a record of

fifteen units of work and pass successfully the college entrance examination. Students who have completed at least fifteen units of work in an accredited high school, but who have not graduated, may be admitted to the freshman class by passing the college entrance examination.

A unit is defined as a course taken five forty-five minute periods a week for thirty-two weeks or five forty minute periods a week for thirty-six weeks.

The following subjects are required of all candidates for admission to the freshman class:

English.....	3 units
Mathematics.....	2 units
Foreign Language.....	2 units
History.....	1 unit
Science.....	1 unit
Electives.....	6 units

The two units required in foreign language must be in the same language.

ADVANCED STANDING

If an applicant desires to secure advanced standing, he must present a complete, certified transcript of his record in the institution last attended, together with a certificate of honorable dismissal therefrom. This information should be sent direct from the office of the school last attended to the Registrar of High Point College. The candidate cannot be admitted until the records are on file in the Registrar's office. Full credit will be given for academic work done in any other college or university of recognized standing, and the student thus admitted by transfer of credits will be classified upon the merits of the work completed. High Point College cannot receive a student, however, whose record of work done in the previous institution fails to meet the requirements for continuation of courses here.

The Foyer in Robert's Hall

SPECIAL STUDENTS

In case an applicant has been denied the advantages of complete high school preparation, and is found to be sufficiently mature and worthy to pursue college courses, he may be considered a candidate for admission to High Point College under the provision for special students. Only a small number of such students will be admitted. The Executive Committee must pass upon the applications of all special students, and if in its judgment the applicant is worthy, capable, and sincere, he may be admitted. It is important, therefore, that the applicant for such admission provide the Registrar with the necessary information concerning his preparation, plans, etc., at least ten days before the period of registration.

Special students are admitted only to such courses as are best adapted to their need and preparation, and no special student can become a candidate for a degree until he has become a regular student by making up his deficiencies. These deficiencies may be removed by attendance upon summer school, or by private study and examination in college.

ACADEMIC REQUIREMENTS

In order to safeguard the student's academic welfare and to uphold the standard of scholastic work maintained at High Point College, the following regulations have been adopted:

No student shall be allowed to take his final examinations at the end of a semester or to graduate until all of his accounts with the college are settled. No student shall be allowed to matriculate at the beginning of a new semester who has not paid the accounts of the previous semester.

REMOVAL OF CONDITIONS

All conditions of whatever character shall become failures if not removed within one year from the date on which they were made. That is, any condition made in

the fall term must be removed by the end of the first week in November of the next year, and any condition made in the spring semester must be removed by the end of the first week in March of the next year. (In the event of a student dropping out of school and later returning, the time out of school will not be counted in the requirement.)

In case a student received a condition on a course the same may be removed by a special examination, or by making a grade of "C" on the following semester of the same continuous work, and when such condition is removed the grade shall be "D".

Seniors shall be required to remove all conditions by May 1st. Any condition not removed by this time shall automatically become a failure. Any senior who is removing a condition by working for a grade of C in a continuous course shall be considered as complying with the regulations if his instructor testifies that he is keeping his class average sufficiently high to justify a belief that he will make the required C.

SPECIAL EXAMINATIONS

The Schedule Committee has designated the first week in November and the first week in March as Special Examination Weeks. During these weeks all examinations for the removal of conditions must be taken. A charge of \$2.00 is made for each special examination, and a permission for such examination must be secured from the Dean of Instruction before the appointed day arrives for the examination. Any students who are unable to take the examinations in regular order on account of illness or other unavoidable conditions may take the examination at this same period.

CHANGE OF COURSES

Students must select their courses with care so as to enter upon the required subjects at the very beginning of their college career, and to avoid conflicts in the schedule of recitations.

No student shall be allowed to change courses after 15 days from the stated period of registration. Any course dropped without the permission of the Dean of Instruction shall be marked on the records as a failure. Any course discontinued after November first of the fall semester or March the 15th of the spring semester even with the permission of the Dean of Instruction shall be recorded as a failure.

Each student must register for fifteen hours of college work unless a smaller selection will meet the requirements for graduation. This does not apply to those few individuals designated as special students.

No student shall be allowed to carry more than sixteen academic hours during the first semester that he or she is a student at High Point College. After the first semester a student may carry a maximum of twenty hours, provided in the judgment of the Executive Committee the grades of the previous semester justify permission for such additional hours.

No class will be organized for which fewer than eight students register unless permission is granted by the Executive Committee.

It is the policy of the college to permit no student to occupy a room in the dormitory or board at the college dining room who has not registered for fifteen hours of work. Failure to continue at least twelve hours will automatically debar a student from residence at the college.

During the Freshman year a student must pass 12 semester hours of work in order to continue in college. After the Freshman year, a student must pass at least 9 semester hours each semester to be eligible for readmission. Any exception to this rule must be approved by the Executive Committee.

Freshman and Sophomore Requirements

Candidates for the A.B. degree must pursue the following schedule of study during the first two years.

By the beginning of the junior year some subject must be selected as the major study. The head of the department thus selected will then become the student's adviser and will guide the candidate in the proper grouping and organization of the work. The following schedule must be followed during the first two years in college:

FRESHMAN YEAR

English.....	6 hours
Foreign Language.....	6 hours
Science.....	6 or 8 hours
History.....	6 hours
Mathematics or Religious Education.....	6 hours
Physical Education.....	2 hours

SOPHOMORE YEAR

*Sophomore electives may be chosen from education, foreign language, history, mathematics, or science. Those students who are planning to teach in grammar grades may elect courses from the field of fine and industrial arts or physical and health education.

One hundred twenty-eight semester hours are required for graduation in any department. Not more than eight hours in practical physical education and not more than six hours in theory courses may be counted toward graduation except for those majoring in physical education. All students are required to take six semester hours of physical education in the practical field. Any exception to the physical education requirements must be by action of the Executive Committee.

Any candidate for a bachelor's degree from High Point College must complete the last thirty hours of work in High Point College.

No student will be allowed to graduate unless he has an average of "C" on his major subject and has made a ratio of 1 to 1.5 between the number of semester hours offered for graduation and the number of points received. Any exception to this must be by vote of the faculty on recommendation of the Executive Committee.

Prescribed Subjects*

The following subjects are prescribed for all students for graduation with the A.B. or B.S. degree.

English.....	12 semester hours
History.....	6 semester hours
Science.....	6 or 8 semester hours
Foreign Language.....	12 semester hours
Religious Education.....	6 semester hours

Honor Points

The diploma of a graduate with a ratio of 1 to 3 shall read Cum Laude; that of a graduate with a ratio of 1 to 3.5 shall read Magna Cum Laude.

*For any exceptions see departmental requirements.

Electives

In organizing the courses of study around the major subject the student, under the direction of his adviser, may select work from any academic department. In addition a candidate for the A.B. degree may select a maximum of 12 hours in music, including harmony, history of music, appreciation or public school music. A limited selection of courses may be chosen, likewise, from the department of commerce with the advice and permission of the Dean of Instruction and head of the major department.

CLASSIFICATION OF STUDENTS

A student admitted upon certification of graduation with 15 units from an accredited high school will be classified as a freshman at High Point College. The student who is a graduate from a non-accredited high school may enjoy the same rating provided he passes the special examination prepared by the State Board of Education. For admission to the sophomore class a student must have completed 24 hours towards his degree before the opening of the year in which he is so classified. To be classified as a junior he must have completed 54 semester hours before the opening of the year in which he is to be so classified. In order to be classified as a sophomore at the beginning of the second semester, a student must have completed 39 semester hours, and for classification as a junior at the beginning of the second semester he must have completed 69 semester hours. All students who at the beginning of the fall semester lack only one possible year's work for the completion of all degree requirements and who matriculate for such required courses shall be classed as seniors. All students who, at the beginning of the spring semester, are within possible reach of graduation by the end of the summer session may be classed as seniors. The catalogue classification shall indicate that graduation requirements are to be met by courses completed in summer school.

REGULATIONS ON ABSENCES

Regulations with respect to attendance on class, chapel, church, and all other stated exercises of the college program will be printed in the official handbook of the Student Government Body which will be given to each student at the time of registration. Students will consult this official guide-book for important information and for regulations that are binding.

EXPENSES

The collegiate year is divided into two semesters, dates of which are designated on the calendar (see page 5). **When a student registers, it is for the semester, and the student becomes obligated for the full semester expenses.** No deduction is allowed for late registration. And no refund will be allowed for board unless a student is absent longer than two weeks, and then only for such time exceeding two consecutive weeks.

No money paid will be refunded, and no credit will be allowed on charges for any other expenses.

A reservation fee of \$10.00 must be paid by all students before the application is considered complete. This fee will be credited to the applicant's account.

A room deposit of \$10.00 is required of each applicant for dormitory space, payable when application is made. In case of dormitory students the \$10.00 will be held as security against damages to room and contents. If no assessment for damages is made, it will be returned to the student at the end of the school year.

These fees will not be refunded after July 1.

Breakage or damage in the laboratories by students will be assessed at the end of the semester to the student or students responsible for such damage or breakage.

Students expecting to receive a state teacher's certificate will do their practice teaching in the local and nearby schools. Prerequisite: Senior standing and an average on all subjects of at least a "C". For this each student will pay \$17.50, subject to change.

Transcript Fee—After the first transcript, a fee of \$1.00 will be charged for each additional one.

A student withdrawing from college without due notice to Dean of Instruction or Registrar will be assessed \$5.00. This penalty together with all charges in arrears must be paid before such student can again enroll or secure transcript.

Commercial Subjects—There are three regular courses outlined in Business Administration. Students must register, therefore, for the work as thus outlined and will not be permitted to take one or two commercial subjects apart from these courses. Provided, that regular enrolled students in any department of the college other than Business Administration may take typewriting and/or shorthand, without college credit, by the payment of \$40 per year for either subject, or \$75 for both subjects. Accounting may be taken on the same basis as to credit and charge as any other subject in the curriculum.

-------------------	---------

Courses of Instruction

Students desiring Pre-Medical and Pre-Dental courses will take work as scheduled on Page 59.

PRE-LAW CURRICULUM

Students expecting to enter the profession of law can obtain the necessary preliminary courses for the work at High Point College. Individuals registering for the pre-law training should schedule a group of subjects that give the necessary credit in this field. The Dean of Instruction or Registrar will assist the student in the right selection of courses.

ANCIENT LANGUAGES

Courses in Greek and Latin will be offered when a sufficient number of students request them.

ART

MRS. BARKER

ART 1. Drawing and Painting.

Principles of drawing and painting, with study of line, form, color, and composition. First semester, three hours.

ART 2. Industrial Art

The study of principles as related to Industrial Art and problems which will confront the teachers in public schools. Different media and crafts studied. Second semester, three hours.

ART 3. Methods of Teaching Art.

A study of objectives and methods as an aid to the home room teacher in the elementary school in the teaching of the fine and industrial arts. Second semester. Credit, three hours.

BIOLOGY

DR. HILL

MR. ANTONAKOS

BIOLOGY 1. General Biology. First semester, 4 hours.

This course begins with a discussion of the cell and of the fundamental nature and processes of living matter. Then the major part of the course is given to a study of the structure, relations, reproduction and physiology of the major group of plants and of animals. Discussion of biological experiments is introduced at appropriate times. The aim of the course is to give the student a good working knowledge of the system of nature. Lecture, two hours. Laboratory, four hours a week. Discussion groups meet at appropriate intervals.

BIOLOGY 2. General Biology. Second semester, 4 hours.

Continuation of Biology 1. This course begins with a discussion of the development, anatomy and physiology of animals, with special reference to man. Special attention is given the modern development of the science of heredity. Adaptation, distribution, paleontology, taxonomy, and other divisions and principles of biology are stressed in the latter part of the course. Lecture, two hours. Laboratory, four hours a week. Discussion groups meet at appropriate intervals.

BIOLOGY 3. Hygiene and Sanitation. First semester, 3 hours.

A course in hygiene and health education designed to present the essentials of hygiene and sanitation, including individual and group efforts to attain and to retain good health. Topics studied include how micro-organisms act on the body, how the body protects itself, how diseases are transmitted, insect pests, and disinfection. Each important communicable disease is taken up separately. Lecture and recitation, three hours a week.

BIOLOGY 4. Physiology. Second semester, 3 hours.

The aim of this course is to present modern teachings in human physiology in such a manner that the student is not lost in a mass of detail, but yet may obtain a working knowledge of the behavior of the body as a whole and of the function of its parts. The intention is to emphasize the practical aspects of physiology, without, however, making the physiological principles subservient to practical application. Sufficient anatomy is introduced to explain certain physiological processes. Three lectures or recitations a week, with occasional demonstrations.

BIOLOGY 5. Comparative Anatomy of Vertebrates. First semester, 4 hours.

The course is intended for pre-medical students, and for majors and minors in Biology. Prerequisite: Biology 2. Both lecture and laboratory work are carried out on the comparative plan. Recitation two hours. Laboratory, six hours a week.

BIOLOGY 6. Seminar. Both semesters, credit to be arranged.

Individual work for majors in the department and other qualified students, on selected problems in the field of Biology. Prerequisite: permission of the instructor.

BIOLOGY 7. Genetics. First semester, 3 hours.

A presentation of the facts and principles of biological inheritance. The application of genetics to plant and animal breeding and to human problems are emphasized. Lecture, recitation and problems

BIOLOGY 8. Bacteriology. Second semester, 4 hours.

A college course in bacteriology, designed to be of most benefit to home economics and pre-medical students, as well as to those wishing to secure training in bacteriological technique. Recitation three hours. Laboratory, three hours a week. Offered in 1944-45 and alternate years.

BIOLOGY 9. Entomology. First semester, 4 hours.

Life history, behavior and taxonomy of insects. Special attention is paid to local forms.

BIOLOGY 10. Ecology. Second semester, 4 hours.

Lectures will be devoted to a study of ecological principles and terminology. Laboratory and field work will include a study of factors governing the distribution of local plants and animals.

BIOLOGY 11. Teaching of High School Science. First semester, credit 3 hours.

A course in materials and methods, open to students qualifying for certificate in Biology or in General Science.

BIOLOGY 12. Human Anatomy. First semester, 3 hours.

The aim of this course is to give the student as good a knowledge of the structure of the human body as is possible without actual dissection of a cadaver. Practical applications of anatomical facts in physiology and health are emphasized. Two lectures. Two laboratory periods.

BIOLOGY 13. Vertebrate Embryology. Second semester, 4 hours.

Prerequisite: Biology 5 or permission of the instructor. The introduction to this course shows the relation of vertebrate embryology to the sister sciences, cytology, genetics and physiology. In class the comparative method is followed, while in the laboratory certain types of embryos are studied in detail. The first part of the laboratory course includes instruction in laboratory technique. Lecture, two hours. Laboratory, six hours a week.

BIOLOGY 14. Human Parasitology. First or second semester, 4 semester hours.

Prerequisite: Biology 1 and 2.

A comprehensive study of the field of parasitology, treating of subjects such as life cycles, epidemiological factors, inter-relations of parasite and host, and principles of treatment and prevention. 3 hours class, 3 hours laboratory.

BIOLOGY 15. Botany. Second Semester, 4 hours.

Prerequisite: Biology 1 and 2.

Course enlarges upon the botany offered in Biology 1. A more advanced treatment of plant ecology, economic applications, and a survey of the plant phyla. Three lectures and four hours of laboratory per week.

BUSINESS ADMINISTRATIONDR. HOBART
MR. BRAITHWAITEMR. DALE
MRS. DALEMR. BELL
MRS. BERRY

This department has been established primarily for students who wish to prepare for a business career, and emphasis is laid upon the general principles underlying all lines of business. It is also designed for those who intend to enter commercial teaching, law, or the public service, and generally to form the basis and provide the outlook for a life of activity and leadership in community affairs.

Positions.—Although the college does not guarantee positions to its graduates and students completing special courses, the instructors frequently receive requests from employers for men and women trained in their respective lines. The college solicits such applications from employers and on its part promises to recommend its graduates only when convinced that they possess the qualifications desired by employers who apply.

Business Administration Course

Students majoring in this department will be required to follow the courses as outlined below for the first two years. In the junior and seniors years, in addition to the required subjects, a sufficient number of courses in this field must be elected to accumulate a minimum of forty hours in credits in order to qualify for the B.S. degree. The total of required and elective courses in the major field shall not exceed sixty semester hours.

This course also leads to the degree of B.S. with a major in Business Administration but is designed for those who wish special training in secretarial work. Such students will be required to follow the courses outlined below for the first two years. In the junior and senior years, in addition to the required subjects, a sufficient number of courses in the business field must be elected to accumulate a minimum of forty hours in credits in order to qualify for the B.S. degree with a major in Business Administration. The total of required and elective courses in this major field shall not exceed sixty semester hours.

Students expecting to qualify as teachers of Business will be required to take the Secretarial Course as outlined and in addition to the required courses listed, 18 hours of Education including Business 24.

Two-Year Course

This course, which can be completed in two years, is designed especially to fit the needs of the student who wishes to pursue business training courses in college following his high school work but does not wish to complete a four year course. This two-year course follows the four year secretarial program and after successful completion of the required subjects for the first two years a two-year course certificate is granted to those who are not seeking a bachelor's degree.

BUSINESS 1. Introduction to Business.

The aim of this course is to acquaint beginning students not only with the functions and practice of modern business but also with those economic institutions that facilitate the operation of individual business units. The presentation plans the emphasis on fundamentals, providing a general survey as well as a foundation for students preparing for specialized and advanced courses. First semester. Three hours credit.

BUSINESS 2. Economic Geography.

A study of the economic, social and political aspects of commodities and products of industry in relation to the physical background of production areas. Special stress is laid upon resources and their products as related to natural boundaries. Attention is also given to industrial development and trade relations. Second semester. Three hours credit.

BUSINESS 3-4. Accounting.

Designed to meet the requirements of beginners and of students with some experience in bookkeeping who desire to become thoroughly familiar with the fundamental principles before taking up more advanced work. Considerable time will be spent in drill on opening and closing of books, balance sheet, profit and loss statements, work sheet, and advantages of the cash journal. Interest, bank discount, depreciation, reserves, etc., will be studied.

Both semesters. Eight hours credit. Required of all sophomores.

BUSINESS 5-6. Accounting.

A logical continuation of Course 3-4, intended for students who desire a more thorough knowledge of accounting for general business purposes or for the profession of accounting. The original aim is to teach accounting principles, giving the reason for their existence and showing their applications to practical accounting propositions.

Both semesters. Eight hours credit. Prerequisite accounting 3-4.

BUSINESS 7-8. Economics.

An introductory course designed for the needs of the general student and embracing, in addition to a comprehensive study of the factors and principles of production, exchange, distribution and consumption, a rapid survey of the evolution of the existing economic system, a careful examination of the most important economic problems, and a brief history of economic thought.

Some of the problems considered are: industrial monopoly and control; supply and demand; money and income; risk; taxation; public utility valuation and regulation; industrial unrest and conflict; organized labor; international trade; foreign exchange, balance of trade; comparative advantage; free trade; protection; tariff; reform and economic control.

Both semesters. Six hours credit. Required of all sophomores

BUSINESS 9. Retail Organization and Management.

This course includes a common sense survey of the complete scope of successful retail store management and merchandising. In the beginning is given a brief historical background and an outline of existing types of retail institutions. Then follow discussions of the various phases of retailing in the order in which they usually arise—from problems of location, building and fixtures to the purchase and pricing of merchandise. Also, the course stresses promotion and initial organization; retail accounting; ownership and control; credit; collections; risks; insurance; purchasing and marketing.

Second semester. Three hours credit.

BUSINESS 10. Sales Management.

A study of the planning of sales campaigns and the organization and management of sales forces for both large and small business firms.

First semester. Three hours credit.

BUSINESS 11-A. Office Management and Office Practice.

A thorough study of the principles and methods which underlie efficient and economical office management in such a way as to meet the requirements of the student in Business Administration as a potential executive. An analysis of procedure, systems, and operation of the modern business office will be made. In addition the course will include a study of adding and calculating machines together with practice in their operation. Lecture and laboratory periods. Fee \$2.50. First semester. Three hours credit.

BUSINESS 11-B. Office Management and Office Practice.

A continuation of the first semester course. It includes a study of office machines, including duplicating machines and dictating and transcribing machines. Special attention is given to filing methods, office procedure, and business ethics. Prerequisite: one semester of typing. Lecture and laboratory periods. Fee \$2.50. Second semester. Three hours credit.

BUSINESS 12-A, 12-B. Business Law.

This course deals in a general way with the subjects of contracts, agency, partnership, corporations, sales, and negotiable instruments; and is intended to give students a practical acquaintance with the fundamental principles of each. Considerable time will be spent in studying actual cases and in drawing business papers.

Both semesters. Three hours credit.

BUSINESS 13. Business Organization and Finance.

A study of the financial problems of the different types of business organizations, the business cycle, stocks, bonds, the stock market, financial difficulties and failure. Prerequisite: Business 3-4.

First semester. Three hours credit.

BUSINESS 14. Labor Problems.

A study of the relation of the employee and the employer, including such topics as woman and child labor, immigration, sweating system, poverty and unemployment, strikes and boycotts, labor organizations, agencies of industrial peace, methods of wage payment, conciliation and arbitration, industrial education and labor laws.

Second semester. Three hours credit. Junior and senior course.

BUSINESS 16. Marketing.

Marketing problems; analysis or organization of markets and methods of distribution and transportation of goods. Market prices; the commission man, wholesaler, retailer, jobber, broker, and struggle between these various agencies for control of market. Types of retail stores—such as chain, department, manufacturer's branch, specialty, mail order, etc.

Second semester. Three hours credit.

BUSINESS 18. Public Finance.

This course covers public expenditures, public revenues, as returns from domains, fees, taxes, and public debts. A thorough discussion of the tax systems now in use and the dispensation of these revenues, etc.

First semester. Three hours credit. Junior and senior course.

BUSINESS 19. Money and Banking.

A general study of the history of money and monetary standards, a brief survey of commercial banking of other countries, including the evolution of money and the banking institutions and their relationship to the financial structure and credit. A thorough analysis of the Federal Reserve System and its effects on the credit structure of the United States. Also, a survey of trust companies, commercial banks, and investment banks, emphasizing their place in the credit economy, pointing out the causes and effects of the influence of government regulations concerning these institutions.

Second semester. Three hours credit. Junior and senior course.

BUSINESS 20. Business English.

A study of the form and construction of business and sales letters. Familiarity with technical and business terms and making technical reports are an important part of the course. Required of all two and four-year business students.

Second semester, three hours.

BUSINESS 21. Business Arithmetic.

A brief elementary course in arithmetic which reveals the short-cuts and helpful suggestions for speed and accuracy in computations. Major emphasis is placed upon developing proficiency in those problems frequently met by secretaries and office workers.

Each semester. Three semester hours credit.

BUSINESS 22. Advanced Shorthand.

Dictation, transcription, and speed building. Experience with business letters, minutes of meetings, and reports. Group and

individual practice. Prerequisite: Business A or tested ability to write legible shorthand at a reasonable rate of speed. Given five times per week throughout the year.

Three hours credit each semester.

BUSINESS 23. Economic History of the United States.

Same as History 24.

BUSINESS 24. Materials and Methods in Commerical Teaching.

Methods in teaching common commerical subjects, with emphasis in particular upon bookkeeping, business arithmetic, shorthand, typewriting, etc.

Second semester. Three hours credit.

BUSINESS 25. General Insurance.

This course gives to the student a comprehension of the principles of insurance which are of practical value to every business man. Special attention is given to the advantages and disadvantages of the various kinds of policies in the fields of life, property, compensation, casualty, automobile, and marine insurance and to the bases upon which the companies draft their policies and contracts.

Second semester. Three hours credit.

Prerequisite: Junior or Senior standing.

BUSINESS 26. Transportation.

A general study, from the historical and critical points of view, of the development of inland transportation by rail, water, road, and air, with special attention to the economic principles involved. The social, economic, and political significance of transportation. The need for a national transportation program.

Second semester. Three hours credit.

Prerequisite: Junior or Senior standing.

BUSINESS 27. Advertising.

A study of the principles of advertising; its creation and functions; its correlations with business aims; psychological and economic considerations; problems, procedure and technique.

First semester. Three hours credit.

BUSINESS 28-A. Industrial Management.

It is the purpose of this course to familiarize students with the problems of industrial management and to develop a method of thinking with which to meet and solve new problems as encountered. Attention is given to such problems as specialization, standardization, and purchasing. Special emphasis is directed to the control of the production process.

Second semester. Three hours credit. Junior and Senior course.

BUSINESS 28-B. Introduction to Personnel Management.

Of ever increasing importance in the business world is the ability to develop employees as individuals and at the same time to get the most production per hour worked—this is the function of the modern personnel department. The course deals with such matters as employment procedures, security, employee benefits, job analysis and specification.

Second semester. Two hours credit.

BUSINESS 29. Accounting—Income Tax.

A study of the practical application of the principles of the Federal Income Tax Law to everyday situations, covering the preparation of corporation, partnership, and individual tax returns, as well as payroll tax problems, withholding taxes at source, refunds, credits, and deductions.

First semester. Three hours credit.

BUSINESS 30. Accounting—Cost Accounting.

This course is designed for students requiring practical training in cost accounting in the shortest possible time consistent with a thorough and comprehensive treatment of the subject. Fundamentals of cost accounting; subsidiary ledgers and cost records; material cost transactions; direct and indirect labor; manufacturing expense; service department costs; monthly closing entries; process cost accounting; uses of standard costs; standards in the accounts.

Second semester. Three hours credit.

BUSINESS 31. Accounting—Governmental Accounting.

This course will stress the application of accounting principles to municipalities. Budgeted revenue and appropriations; collection of current taxes; collection of assessments receivable; collection of delinquent taxes; cash paid on appropriations; cash borrowed from a special fund; cash borrowed from a bank; payment of liabilities.

First semester. Three hours credit.

BUSINESS 32. Accounting—Auditing.

Practice and procedures in making different types of audits. Through the medium of problems the principles will be gradually developed from the beginning of the audit to the writing of the report. Emphasis, however, will be placed on the balance sheet audit and the working papers.

Second semester. Three hours credit.

BUSINESS A. Shorthand.

Training in the principles of shorthand and their applications to dictation and reading from shorthand notes, together with transcription on the typewriter. Special emphasis is laid on speed and accuracy. Given five hours per week throughout the year.

Three hours credit each semester.

BUSINESS B-1. Typewriting.

Beginning course. Drills are used to develop facility, accuracy, and complete mastery of the keyboard in the shortest possible time. Instruction in letter writing, centering, and simple tabulations. Fee \$2.50.

First semester. Five times per week. Two hours credit.

BUSINESS B-2. Typewriting.

A continuation of Business B-1 with special emphasis on more advanced forms of business typing. It endeavors to develop the highest possible speed for each individual student.

Second semester. Five hours per week. Two hours credit. Fee \$2.50.

CHEMISTRY AND PHYSICS**Chemistry**

DR. CUMMINGS

MR. MOURANE

Because of its outstanding advantages of climate, nearness to natural resources, and intelligent American labor, the South is rapidly becoming industrialized. North Carolina has become the center of this industrial development in the South. These industries need chemists for control, developments, and research. Thus High Point College is ideally located for the theoretical and practical training of chemists.

The Chemistry department cooperates very closely with the many industries located in this vicinity. During the senior year a considerable amount of time is devoted to research upon practical industrial chemical problems. The student, under the direction of the professor in charge, works part of his time in the laboratories of plants nearby, and the remainder in the College laboratories. Thus his work is made more interesting, and he obtains practical training which very few schools can offer.

Furthermore it is not uncommon for industries hiring these chemists to allow credit for a year of practical experience due to the carrying on of this industrial research in the plants.

For the Degree of Bachelor of Science with a major in Chemistry:

Prerequisite: Chemistry 1-2; Mathematics, 6 semester hours.

Major Requirements: Chemistry 3, 4a, 4b, 9-10, 15-16, Elective, 4 semester hours. Mathematics 5-6, Physics 1-2, German 1-2

Students who wish to become Professional Chemists should elect other courses so as to make a maximum of 60 semester hours in Chemistry.

CHEMISTRY 1-2. Inorganic Chemistry.

A survey of the principal non-metallic and metallic elements and their compounds. Three hours lecture and four hours laboratory per week. Credit, four hours. Each semester. Freshmen.

CHEMISTRY 3. Qualitative Analysis.

Prerequisite: Chemistry 1-2.

A study of a method of finding and isolating the elements from their compounds. Two lecture and four laboratory hours per week. First semester. Credit, four hours.

CHEMISTRY 4a. Quantitative Analysis.

Prerequisite: Chemistry 1-2.

Elementary volumetric methods of finding the percent of a constituent present in a compound. Second semester. Three lecture and problem hours, four laboratory hours per week. Credit four hours.

CHEMISTRY 4b. Quantitative Analysis.

Prerequisite: Chemistry 1 and 2.

Elementary gravimetric methods of finding the percent of a constituent present in a compound. First semester. Three lecture and problem hours, four laboratory hours per week. Credit four hours.

CHEMISTRY 5-6. Technical Analysis.

Prerequisite: Chemistry 4b.

Analysis of coal, steel, fertilizers, microscopic determinations, etc. One lecture and six laboratory hours per week. Credit, three hours. Each semester.

CHEMISTRY 9-10. Organic Chemistry.

Prerequisite Chemistry 3.

An elementary study of the compounds of carbon, with special reference to the theory and principles which underline the study. Three lecture and six laboratory hours per week. Credit, five hours each semester.

CHEMISTRY 13-14. Industrial Chemistry.

Prerequisite: Chemistry 9-10.

A study of the more important chemical processes, the principles involved, recent developments, and the probable future trends. Three lecture hours and three laboratory hours per week. Credit, four hours each semester.

PHYSICAL CHEMISTRY 15 and 16.

Prerequisite: Chemistry 3-4, Physics 1-2, Mathematics 5-6.

Pressure volume relations of gases, properties of liquids: general properties of solutions, chemical equilibrium, phase equilibrium, transference and conductance. Three lecture hours and three laboratory hours per week. Credit, three hours each semester.

CHEMISTRY 19-20. Research.

The object of this course is to train the student to look up the literature pertaining to an industrial chemical problem, and to apply the knowledge obtained from all preceding chemistry courses to the solution of the given problem. Usually problems relating to the chemical industries located in this vicinity are studied. The student carries on this investigation both in the laboratory of the plant concerned and in the college laboratories, under the supervision of the professor in charge. A written thesis must be presented for acceptance. Credit, four hours each semester.

CHEMISTRY 23-24. Foods.

Prerequisite: Chemistry 9-10.

A study of the composition of foods. Three lectures per week. Credit, three hours.

CHEMISTRY 25. History of Chemistry.

A study of famous chemists and their contributions to the field of chemistry. Hours credit depending on the number of class meetings. (Not offered in 1950-51).

CHEMISTRY 27. Physiological Chemistry.

Prerequisite: Chemistry 9-10.

A thorough study of enzymes, vitamins, digestive juices and their influence upon the digestion of food. Credit, three hours.

CHEMISTRY 30-31. Paint and Industrial Finishes.

Three lecture hours and three laboratory hours per week. Credit 4 hours each semester.

The courses offered in education are planned to meet the professional requirements of the State Board of Education for High School Teachers' Certificates, Grammar Grade Teachers' Certificates, and Primary Teachers' Certificates. Before registering for courses in this department the student should consult one of the instructors so as to make sure of the proper number and selection of professional courses. The requirements for High School Teachers' Certificates and the Grammar and Primary Certificates are set forth as follows:

The minimum scholastic training represents graduation from a standard four-year college. The subject, or subjects, for which certification is granted appear on the face of the certificate. It is desirable that one be qualified to teach two or more subjects.

The following requirements become effective as of July 1, 1950:

PROFESSIONAL REQUIREMENTS:

The minimum professional requirements for each certificate are listed under the following divisions. The School, The Pupil, Teaching and Practicum. Six semester hours are required in each of these three divisions. The specific courses required in Education are Education 30; 31 or 32; 33; 34; 35 or 36. Other courses in Education and Psychology may be taken as elective courses but not as substitutes for the specifically required courses.

ACADEMIC REQUIREMENTS:

The academic requirements vary with the subject for which certification is granted. The minimum subject matter credit for the teaching of any subject shall be:

I. Primary A Certificate.

1. English:	
As required in General Education	12
In addition to what is required in General Education, the following	
Required—	
Children's Literature	2 or 3
Recommended—	
Advanced Grammar and Composition	3
Speech	3
2. American History	6
Government	2 or 3
3. Geography (including Principles & Regional)	6
4. Art	6
Music	6
5. Health and Physical Education	10
This would include:	
Principles, Practices and Procedures in Physical Education for Elementary Schools	2
Principles, Practices and Procedures in Health for Elementary Schools	2

II. Grammar Grade A Certificates.

The specific requirements are the same as for the Primary A Certificate. In certain areas it is expected there would be slightly different emphasis for the two groups.

III. Secondary School Certificates.

The requirements here presented are for teaching the subjects in question.

1. Art	30
Design (industrial, interior, costume)	9
Drawing and Painting	9

Education

The School

EDUCATION 30. The School as a Social and Educational Institution.

This course makes a comprehensive study of the school. It begins with a brief review of the European background of education followed by an extensive study of the origin and development of the theories and practices of American education. It also includes a study of early European and American educators. Considerable attention is devoted to the school as a social institution and to the contributions it has made to the democratic way of life. Required of all candidates for a teacher's certificate.

Three hours credit, fall semester.

EDUCATION 31. The High School.

This course is the continuation of Education 30 with particular emphasis devoted to the philosophy, the aims and purposes, principles and practices as they relate to the high school. Emphasis will

be given to the organization and to the administration of the curriculum of the high school and to the recent trends in secondary education. The high school will be evaluated from the standpoint of the aims, purposes, procedures and outcomes. Required for High School Teacher's Certificate.

Three hours credit, spring semester.

EDUCATION 32. The Elementary School.

This course is the continuation of Education 30 with particular emphasis devoted to the philosophy, the aims and purposes, principles and practices as they relate to the elementary school. Emphasis will be given to the organization and to the administration of the curriculum of the elementary school and to the recent trends in elementary education. The elementary school will be evaluated from the standpoint of the aims, purposes, procedures and outcomes. Required for the Primary and Grammar Grade Teacher's Certificate.

Three hours credit, spring semester.

The Pupil

EDUCATION 33. Child Psychology.

Three hours credit, fall semester.

EDUCATION 34. Educational Psychology.

Mental characteristics, individual differences; nature of learning; principles of guidance in learning; development of concepts; problem solving; transfer of training; nature and measurement of intelligence; use of intelligence and aptitude tests. Required for High School and Primary and Grammar Grade Certificates.

Three hours credit, spring semester.

Teaching and Practicum

EDUCATION 35. Teaching and Practicum in the High School.

Six semester hours are required in the field of Teaching and Practicum. The course covers a varied range of topics with directed observation in selected school situations followed by an intensive period of supervised teaching. Open to students who have completed prerequisite courses in The School and The Pupil.

At the college, students spend from 3-5 hours per week in group discussions and individual conferences. Topics include general principles and theories underlying the organization of high school programs, schedules and pupil experiences; evaluating curricula; adapting the materials and integrating the methods of instruction to meet the needs and interests of the pupil; survey and administration of tests and measurements, recording pupil behavior and general permanent record keeping. Directed observations include smaller high schools, large rural consolidated schools, and city high schools.

An intensive period of guided observation and teaching in one or more fields for at least 90 periods. In addition, students familiarize themselves with and, whenever possible, participate in related activities of the school, including P. T. A., Y. M. C. A., Y. W. C. A., Boy and Girl Scouts, and utilize the resources of the community.

Required for the High School Teachers' Certificates.

Six hours credit, each semester.

EDUCATION 36. Teaching and Practicum in the Elementary School.

Open to students who have had or are taking courses in elementary school methods, including language arts, social studies, natural science, arithmetic, music and hygiene.

At the college, students spend 2-3 hours per week in group or individual conference with the teacher of the course. Students plan observations, make reports of observations, plan for various teaching activities, discuss problems as they arise in the student teaching situation and evaluate procedures observed and carried on in the elementary school.

Students, as a group, observe various phases of school activities in each grade of the elementary school. When a single group has been selected the student engages in periods of observation and teaching, changing from observation to teaching and vice versa, as the student shows need for further observation, or ability to assume responsibility in teaching. Students observe and teach from one to three hours per day for from three to four months.

In addition to actual teaching, students engage in various school activities, making records of pupil behavior, correcting papers, constructing tests and charts, visiting homes, attending teachers meetings, P. T. A. meeting, and in conferences with principal, teacher, elementary school supervisor and college teacher, singly and in groups.

Required for the Primary or Grammar Grade Certificate.

Six hours credit, each semester.

MATHEMATICS

MISS ADAMS

MATHEMATICS 1-A. College Algebra.

A review of elementary algebra, quadratic equations, binominal theorem, complex numbers, logarithms, and elements of theory of equations.

Credit, three semester hours. Fall and Spring Semesters.

MATHEMATICS 2-A. Plane and Spherical Trigonometry.

A study of the functions of an angle and solution of triangles.

Credit, three semester hours. Spring semester.

MATHEMATICS 3. Analytic Geometry.

A treatment of the straight line, conic sections, transformation of coordinates, Polar equations and Parametric equations.

Credit, three semester hours. Spring semester.

MATHEMATICS 4. Advanced Analytic Geometry.

A continuation of Math. 3 including an introduction to Solid Analytic Geometry.

Credit, three semester hours.

MATHEMATICS 5. Differential Calculus.

A study of the differentiation process and its application, partial differentiation, and expansion of functions.

Credit, three semester hours. Fall semester.

MATHEMATICS 6. Integral Calculus I.

The definite integral and its applications.

Credit, three semester hours. Spring semester.

MATHEMATICS 7. (Education) Materials and Methods in High School Mathematics.

Credit, three semester hours. Fall semester.

MATHEMATICS 8. History of Mathematics.

A lecture course elective for Juniors and Seniors majoring in mathematics and recommended for those desiring to teach mathematics in the secondary schools.

Credit, three semester hours.

MATHEMATICS 9-10. Mechanical Drawing.**MATHEMATICS 11. Advanced College Algebra.**

Credit, three semester hours.

MATHEMATICS 12. Introduction to Modern Geometry.

A course for Juniors and Seniors dealing with the properties of the triangle, circle and other geometric figures from the modern point of view.

Credit, three semester hours.

MATHEMATICS 13. Differential Equations.

A course both for students intending to specialize in mathematics and for students in engineering. Elective for Juniors and Seniors.

Credit, three semester hours.

MATHEMATICS 14. Theory of Equations.

A treatment of the solutions of equations of higher degree, transformations, determinants, elimination invariants, symmetric functions and evolutions of equations. Elective for Juniors and Seniors.

Credit, three semester hours.

MATHEMATICS 15. Integral Calculus II.

A continuation of Integral Calculus I, the calculation of centroids, and moments of inertia; problems in work and liquid pressure; double and triple integrals, series and elements of ordinary differential equations.

Credit, three semester hours. Fall semester.

MATHEMATICS 17. Navigation.

The principles of piloting, of dead reckoning and radio navigation. Map reading. Vector methods applied to the wind triangle, to problems of relative motion and maneuvering. This course will cover the Navigation given on the written exam for pilots.

Credit, three semester hours.

MODERN LANGUAGES

MR. ALLRED

DR. DRIVER

This department offers courses which are designed to meet the needs of the student who wishes to spend the major part of his time in the study of music with emphasis on voice, piano, organ or public school music. It also offers courses that may serve as a minor in liberal arts majors. A student may study music for its cultural benefit only. Such students should consult the music instructors before enrolling in any course.

A co-major in music may be taken with a liberal arts major leading to the Bachelor of Arts degree. Thirty hours of music are required for such a co-major, but more hours may be taken if the student is able to carry them.
