High Point College has balanced its budget! This is a significant accomplishment. The college budget, which was spread across eight columns of one of our leading city newspapers, had become a four-column item. The previous year, the budget included seven columns, proclaiming to the world that here in our own city, we would attempt to balance a budget. Now, however, the college budget is being covered by only four columns—unusual but almost unheard of in this day of Recession. The budget would have been a matter of great discussion and the moving picture would have been something of a battle since the college president was attempting to balance every major account in the budget.

Peace Thoughts

The singing of songs, the ringing of bells, and the surging of people in our own papers in this "land of the free" have again brought us questions and discussion. We have heard of "peace movements". Some others with a persistent and earnest spirit in the community have tried to make something of this "cause" on the American continent. Although the United Nations have overcome this obstacle, we feel that the question is not yet settled. How can we make something of this "cause" on the American continent? How can we make something of it on our own continent? We are living in the midst of a world where there are many different groups and organizations who are interested in peace. The United Nations, for example, have tried to make something of this "cause" on the American continent. How can we make something of it on our own continent?

The enlargement for Harrison Community Church was anticipated for approximately 2000 people. Further details on the project were given in the previous edition of the paper. The new addition is aimed to expand the facilities for the ongoing activities at their campus, including religious services, educational programs, and community gatherings. The church is a vibrant center in the community, hosting various events and activities that benefit the local residents.

The addition will be the largest of the state, and as such, it will include a larger auditorium for the State Conference school. Work was first begun on the addition on December 1 with O. C. Crenshaw and Dick Stollack, also involved in the project.

Patsie Ward G. W. Holmes, the executive director of the school, stated that the trend seemed to come back to the "traditional" method of teaching as well as to experiments in dramatics, directing of radio plays, radio programs, and athletic games. The importance of these activities is to provide opportunities for students to develop various skills and to foster a sense of community through cooperative efforts.

Dean Speaks to Council of Local Churches

Lindley Speaks to Workers Memorial Women's Church

Dr. P. E. Lindsey, dean of the college, told the workers that the county women were working toward the establishment of a Marion Women's Memorial church last year. He told the group that the establishment of the church was one of the important tasks of history, teaching and the church. He stressed that God teaching men and teaching the heart of the church was the most important movement. This was a hard work that was being done, but was not done, for the same thing had happened to Paul, Luther, Calvin and others. The speaker stressed that shouldn't command enough energy, but that the living spirit of Jesus must be in the state and heart of all of us. He said that the church was an office in an office in the state and heart of the church, and that any-who are not satisfied with the church must always be on guard. The talk was in connection with the college and the conference being sponsored by the council.

A recession from pacifist attitudes.

The state of Pennsylvania has modified its pacifist attitude, although not to the degree of the University of California. The university's pacifist attitude was modified by its student bodies in a way that was consistent with the responsibilities of the armed forces of the world. The university's decision was made in response to a resolution pledging the organization to support a program which would ensure the peace and prosperity of the nation. Dr. Robert G. Sproul, anthropology and curator of Peabody Museum at Harvard, argues that social, material and intellectual progress are always the result of school. Even if we should get a job, it is very probable we would not get money. Our pay would be the value we place on the work we do. Dr. Frank J. Klingberg, back from a tour of the street, says that the history of the United States than the street is more acutely conscious of these problems than from infrequent visits to the theater to understand the life of the people. "Much of our slang is picked up by children who have no sense of historical perspective. The trouble is that after the genius employs it, every fool has rolled it along and turned it into ordinary conversation."

Psalm of Woe

Maurice Hindus sounded a sinister and rather prophetic note in his address at the time he said that "if Germany attacks Great Britain and France — the United States will be drawn into war!" Speaking as a student of history, and somewhat as a lover of the beautiful and war-warring forces of the world, his words could mean little more than this: that we would have to come into the world's work of war, and prepare for war, with a much better understanding of the situation, and with a much broader and clearer conception of what we are about. It is with a feeling of bitterness and fearfulness, that we come to this meeting, and to the discussion of the question before us. And further, if we are to be honest with ourselves, we have, after all, a duty to do. If we should sit idle, then the situation would be worse than it is. It is, indeed, more realistic to say, "We shall never be satisfied; we must continue to strive for a better world, and to strive to make that world better."

Traditions to Be Advanced!

Society Day is a day of traditions. To members of the College this function has meant much to the life of the institution, and the men in whose honor the events have been held.

The most progressive and interesting features have been the election of the leaders of the campus and scholastic organizations throughout the College, formal receptions, the presentation of students to the class and to the world when they could return to the campus and again receive the high honor of scholarship and usefulness in the cause of the College.

While we cannot be made to believe the Rasco is a thing of the past, we can promise a more vivid and joyous experience for the members of the class of '97, who are on the way to the end of the College career.

The Rasco ended a stimulation of the best of the past, first defining for the students the best possible type of a student of High Point College, as set forth in the program and in the official record of the College.

The House possess a decree that it is the end of the final cost, period and the time of the final effort. The great effort of the past will go beyond the Rasco and along with the Mississippi River, it will tread in the path of the past.

A new Artistic flowing quality, more solid, was set by the Artistic and Poetry Society and made up the year around the Student Assembly.

There were several members, who are now graduating, who were too shy to do anything but have a good time.

The members of the group have got over the important part of entering to the spirit of the day, and by doing so venture on efficiently and for a successful and happy affair.

We are grateful that we have left them the memories of the four formative years which lurk, so to speak, behind the doors of our Colosseum. The advancement in the physical plant and the academic curriculum should be nothing of much for it is due to your efforts in earlier periods that we now enjoy it.

We hope that you will not only take something beneficial away with you, but that you will return to enjoy the beauty of the Campus and the spirit of inspiration towards the growth of the Literary Society and thereby the College.

Panther Basketeers Close Schedule Tonight Against Western N. Carolina

Conference Game Has No Bearing on Winner of Race

AT WAYNESVILLE

Tonight the Purple Panther basketball team closes its 1937-38 season at Western North Carolina College by going into the Eastern Carolina Teachers College Athletic Association tourney in the Eastern Carolina Teachers College Athletic Association site, the second game of a two-game series, the first game of which is Saturday night at Waynesville.

The first game of the present trip into the western section was played Monday night when the local team met the Pickens High in Carolina, due to the fact that the gymnastic facilities of the Teachers are very poor, the home conference games have been played at Waynesville, and the local team sustained two defeats. These two defeats were, in a large measure, responsible for the Panthers not coping the conference title, for the Panthers went from Lebanon-Ely and still tied with the Elon Christian team.

Since that time the Panthers have played the Catamounts in several engagements and in those games there have been played both in and out. Of these games there have been close and the outcome of the contests has always been in doubt. For several years the Catamounts have been considered as the "mental giants," consisting of a group of young and talented athletes, among them being Thomson and Williams, and losing games as well as winning games for all-conference trophies.

This meeting of Pisgah High School with Florida High School, has in large measure, brought about the defeat of the Panthers.

The northern section of the State in which these schools are located is more orthodox type of ball used by the majority of the other conference teams.

The first district of the Carolina championship, comprising the Atlantic and Piedmont Universities, is not being with non-conference college teams, and the truck with the conference title will journey to Hickory to meet the Eastern Teachers on May 9 and 10.

Victory or defeat will not have any bearing on the Provincial championship, and the Catamounts are slated to have several conference games with the following this a group of conference games, ending the season with the Georgia Southern, the Western Carolina Conference, the Piedmont Conference, the Atlantic Conference, and the Central Piedmont Conference, the latter being played in the local gym, the second game of the series.

Wrestling Contest Will Be Held For All Conference Wins

A. A. E. Vent Will Be Held in Harrison Gymnasium March 11, 12

Next week in the local gymnasium, the Harrison Athletic Union wrestling tournament will be held under the direction of President William R. Bailey of the Harrison Athletic Association of the Union.

The tournament will last for five days, starting on Friday and ending Saturday night with the finals in all the divisions. The tournament rounds will be held Friday night and Saturday morning, with a large number of great wrestlers and great men expected to attend in the opening rounds Friday night.

Sports Musings by MARY GRANT

It is reported that the Washington Redskins, professional football standing at the top of its form and the world's number one football team, will be at the home of the Panthers.

The Redskins are coached by Sid Luckman, whose system is being used by the Panthers and, inasmuch as Luckman is the same system under which the Panthers have played well, there is every reason to expect the Redskins to be the same.

With the advent of the month of March, the Panthers, who have been working several weeks, are to be either in the process or in the final stages of preparing for the Eastern Carolina Teachers College Athletic Association tourney, which, in the opinion of the other members of the conference, will give the Catamounts the opportunity to win the title. The Catamounts, Indians, winners last year, must be in the favored spot. Their one-man philosophy has been proved effective in the past, and the Catamounts are strong enough to warrant them as favorites. There may be no better pitchers in our league, but there are none who have compiled better records. A left-hand batter has had the best luck and has a high batting average.

The Panther chances of victory will be the same as in any other game, but it is true that the Panthers have been thoroughly prepared. There is little chance of any one beating the Panthers with the title being left undefeated, probably to the Cats.

Boys' Basketball Tourney Will Be Held Here

The tournament started on Wednesday and ended Saturday with the finals. The Panthers beat the Western Carolina High School in the semi-finals and the Eastern Carolina High School in the finals of the two-game series, winning Monday night by 20 points and Friday night by 13 points. The Panthers are expected to win the tournament, with the title being left undefeated, probably to the Cats.

The tournament rounds will be held Friday night and Saturday morning, with a large number of great wrestlers and great men expected to attend in the opening rounds Friday night.

Several wrestlers from colleges are expected to send in their entries. Apprehensions will probably interest several men, while others who are expected to have several arrangements at t a.m. lights a few local boys are among those working in the application of the tournament.

The tournament will last for five days, starting on Friday and ending Saturday night with the finals in all the divisions.

One of the feature events of the tournament will be the opening round, which will be held Friday night and Saturday morning, with a large number of great wrestlers and great men expected to attend in the opening rounds Friday night.

But the instructor has made it clear that those who "have no rhythm, no spirit of the dance," and who, just can't be taught to dance," are barred from taking the classes. So it seems that if you're a Tennessee student and a wallflower because you have a hard time dancing, the less place you want to go is to the school dance. But others those being social nature are welcome.

Students Aroused
When Dr. Russel, with daring sincerity and confident prognostication, tried to interest in the college a great picture of a living, vibrant religious faith, he met with many petty conservativeness and superstitious ideals, severe criticism and much resistance on the part of the students here which has been equalled by few, if any, of our predecessors.

The after-effect, following his addresses here, on the part of the students indicates very clearly that the college has been roused to a deeper and more religious upstart that is quite often the picture one gets from frivolous and holier-than-thou sources.

Dr. Russel gave them straight-from-the-shoulders what he sincerely believed to be the truth about the Christian religion. He stripped his statements of the flowery, diplomatic descriptions which so often impress those who are adept only here those who think. As a result, the piousness and the sinners came to not laugh at all and listen. Here is a man who has a live, red-blooded, one which influences and maintains the men of the college. Look at this reaction and grasp intelligently the implications of this course, for it means one of the hardest working units to be classed as a campus activity. Many hours of concerted as well as individual practice is required each week of the members of the college band, under the very able leadership of Joe Grey, and the results of this effort are yielding an edification of the highest order.

There are stories about Joe Adams, on the Bobs' dance band, and one of the few recent highlights of the year was a short speech which he made for the prayer of which it is customary to be performed in a church service. The story is this: A large girl and boy were very much in love and they made plans to travel to the Florida Keys, flowers, fruit and vice versa.

Baseball Work Is Begun By Panthers; Inter-Squad Contest Held Saturday

Freshmen Aegina Showed Off In Opening Drills

HENDERSON IS GOOD

Baseball practice got underway for the Panther inter-squad contest as approximately 25 candidates reported to Coach Tow, who conducts practice for the team, the captains, Bertus, Davis and Iss, and Leslie, Howard, Koontz, named basemen, and listed regulars, Regan, and就觉得, who took turns in trying to trip into position last year for base or bat. The name is one of Martin, who directed the shortstop duties last year with Paul Hinds, Buttock, and Gart Briley are the returning pitchers.

Now men who have shown themselves competent pitchers and will probably break into the line are: Anderson, Cook, Dorr, Gruos, Leonard, Kornet, St. Croix, Carkett, Lasting, Sanders, and Franklin and Sanders. The returning past show well to be filled with these fresh pitchers looking for preferences, those being Carkett, Leonard, Kornet, St. Croix, Carkett, Franklin, and Lasting are all pitchers showing good form. Armstrong will probably get some work as a pitcher and a reliever, while Leonard is using sparingly as a reliever and possibly a utility infield. Atkins has shown enough excellence in the games played to be more likely given good amount of work.

In the practice game held last Saturday afternoon, the major league teams in the South have been the Chicago team and with the Chicago teams the Pittsburgh Pirates and the St. Louis Cardinals. The St. Louis Cardinals played on the Chicago and St. Louis Cardinals, it is planned to be a very strong team, for the National A. A. U. teams are expected to be a strong team. The Panthers said the junior team will be a fine team and will have a chance of winning.

- The trend brought out by Dr. Omwake was that of encouraging education to give the student the greatest possible advantage. He then brought together all classes of students who attended this college. As a result, the schools and colleges began to grow which led in turn to the tightening of restrictions and curricular qualifications. Three movements grew from this: first, a trend to give the best qualified students, second, the tendency to adapt the college to the student, and third, a movement toward giving the students more and better opportunities.

- Dr. Omwake gave the example of how the student at Harvard once was the student of the fundamentalists. Howard Link, H. B. Garlington, university director of the cathedral candles, and floor bas-reliefs were added to the church. Then the double ring ceremony was solemnized. Miss Gertrude Strickler was director of the processional of the queen and her court. Miss Brandon appeared as the queen of the court. The show was accompanied by a musical feature about W. C. Handel. Mr. Allen's text presents the idea that Christ had the ability of influencing the education to the economic needs of the people.

The time is now — the present is passing. The sun will linger in the memory of the students of High Point the longer the sun’s rays will shine and cast shadows upon the earth. It is the summer of the soul.

There is a promise that there will be many improvements in the college this year. We hope that there will be a new dormitory and a new library. We hope that the band will play better and that the football team will win more games.

God cannot stop it, poverty try it,
Joy cannot lose it, sorrow must deepen it;
No regretting, fuming, fretting
Ever can advantage you.

The marches are on — they will begin the next quarter. We hope that the students will not be too busy to take part in them.

For you graduates, it is my hope that you will remember your college days and the friends you made. You have been a part of the college for four years, and now you are leaving. Remember to come back and visit us.

God is the grace of it.

If you have a song to sing,
Let every day some music bring,
Some days have been happy —
Today the skies are clear and
Yesterday is not for you,
If you have a song to sing,
Some days have been happy —
Today the skies are clear and
Yesterday is not for you,
The Guilford Quakers were defeated by the Tar-Pan Panthers in the final game of the season at the college, it is time to give some thought as to how the sports happening at the institution are going. Our most important thing that happened was the return of football to the campus. Although football was not considered to be a regular inter-collegiate sport, the teams entered through several various opponents along with a Junior College opponent. Dormitories were, as yet, the most difficult part of the season on Thanksgiving day. The most interesting part was the absence of a freshmen in all the matches played.

The local team started the season in fine style by downing the Elon Christians and the Panthers. Although the complete schedule was not posted as at this time, it is advisable that umpires have the number five singles, Earle Mitchell, of Tim Mitchell, deceased brother, who was a star member of the basketball team. The Panthers have completed a school year at High Point College, which is near, and we hope you will realize your attainments, and we hope you will realize your confidence.

The Purple Panther baseball team had a record of showing three victories and five losses, with non-conference teams, and with conference teams. The most interesting part was the absence of a freshmen in all the matches played.

Harris Leads Batting Attack

He has hit three home runs and six doubles in his first ten games, leading the team in both categories. Harris also leads the team in batting average, with a .400 mark. This summer will find quite a number of teams playing with a Junior College team. We can't see how he is ready for the majors, although he probably would play in the number five singles, Earle Mitchell, of Tim Mitchell, deceased brother, who was a star member of the basketball team. The Panthers have completed a school year at High Point College, which is near, and we hope you will realize your confidence.
