Kappa Delta Chapter
To Be Installed Here
Next Saturday Night

The oldest sorority on the campus of High Point College, Theta Phi, will be formally installed into national Kappa Delta as the Gamma Chapter February 13-15. The official program of installation will be Saturday, February 13 at 1:00 p.m. with Julia Aber, national president of the Kappa Delta, presiding.

SECOND SEMESTER ENROLLMENT WILL BE NEAR FIRST SEMESTER'S TOTAL
Eleven Students' 'Flunk', Nine Seniors Graduate

Registration for the second term of the 1964-1965 school year showed that 616 students were in attendance, the same number of students that was present in the first semester. Twelve students were not permitted to register because of an insufficient grade. Those who were not eligible for the second term, therefore, do not qualify for Game Day at the end of the current semester. Those registered students are participating under regulations of the United States Office of Education.

CHURCHES TO HOLD SKATING PARTY FOR HPC STUDENTS
Do you like to skate? Do you want to see and be seen by your fellow students? Do you have some free time Monday tonight?

If you can answer yes to those questions you'd better get ready to go to the skating party being sponsored by the College chapter of the Methodist Student Fellowship. Those who are interested are asked to meet at the Forum at 9:00 to get ready for the evening.
Nurse. I’m sick, I think, I have four degrees of temperature, my stomach is upside down, my head feels like a cement that’s rolled down a beach, and I can’t breathe except through my nose and my mouth.”

That’s what I told the nurse last week. She took my temperature, and said, “I’m going to stand you up to bed for the flu (Greek for ‘nothing feels good!’).”

I went into the sick bay, cranked the bed up high so I could get a good look at my reflection. I was so pale and bloodless and bright colored pajamas, and sat back to try and enjoy myself as much as I could. I couldn’t even smile.

Just as I was beginning to get used to the place, the nurse came in with a thermometer in her hand; “He’s down and you’re burning up, you’ve got the flu,” she said.

I thought I could halfway enjoy myself. She popped the thermometer into my mouth.

After the nurse had settled for a little nap, she came in, needle in hand, ready to give me a shot. “Roll over,” she said, and I did, so I could have my arse done. I’m still sick tonight.

I thought to myself, maybe I’ll get a little nap now. I did. It was good while it lasted. When I woke up several hours later, I felt worse than I had when I went to sleep. My head was burning, and I was so sick and weak I couldn’t even sit up.

About the time I was almost wide awake, several visitors came to bring flowers and ask the news of him. They were the last thing I wanted to hear. I was just convalescing, and having a jolly time when the nurse came in to give me another shot. She didn’t even look at the crowd, sputtered something about thinking about how my life was going to be, with a pill and if they didn’t want it. They left.

I suffered the pangs of dehydration, aching muscles, and general despondancy for about three days and the nurse asked me if I felt like coming to the hospital for a week. I was doing well now, and I decided to get everything together to leave. I’ll let you out on your own, I said, as I staggered out the door, still a little weak in the knees.

As far as she knows, I felt OK after I left. If I had stayed in that place another day or two, I really would have been sick.

I don’t think I will fix any more. I’d rather have pneumonia, they have a cure for that.

Since I have had a mouth’s worth of writing from this column, here I am; thank you for your patience.

Before I go any further with this chat, I want to welcome all the new students and faculty members to HPC, and to all the others who have played, and play, such a vital part in the affairs of the college.

Several weeks ago when John Pyecha scored 49 points against the Panthers, I heard one fellow remark after the game something like this: "We always let one player have a good scoring night against us because it might help in that the other against each other.

This is an illustration of the fact that we are courteous here at HPC. So let me "kum" another cigarette from you, "Georgia."
Jane Lucas

A Dream Is A Wish Your Heart Makes

Do you have a dream? I wonder if we took a poll on the question how many would be uncertain, maybe not have one or is worse than either of these, how many would be ashamed to admit having a dream, would act apathetic and sheepish?

Too often our generation is accused of not having ideals. Maybe we can’t be blamed for this. With the possibility of complete annihilation staring us in the face, it is hard to look up; but remember it takes more courage and even higher ideals to stand up in the face of great odds. There are other reasons why youngsters lose sight of their dreams. Cynicism is one of the bitterest enemies of idealism. You have heard the saying, “There is no grade like the reform school.” It might as well be said that there is no cycle like the dead-end.

Do you remember your high school class prophecies? Imagine yourself at a class reunion twenty years from now. How many of those prophecies will have come true? What of the boy who was chosen “most likely to succeed” or the girl who was going to write the great American novel, or the girl who was going to be another Parsons? Maybe they haven’t reached the heights yet, but at least hope is still alive—“or isn’t it?” Have their dreams been destroyed by cynicism, ridicule, loneliness, or abandonment, or are their dreams still lighting their everyday lives with promise of fulfillment? It isn’t necessarily attaining your goal that makes life worth-while. It is that striving and working toward it which puts that extra spark in life.

Remember that “dreams are like stars.” You can’t touch them, but if you are hot or are in distress they will guide your way to your destination.”

Pifo Range Rises

Continued from Page One

The newly discovered element, Plutonium, is a transuranic element discovered by Enrico Fermi, head of the University of Chicago. Their findings will be ready this spring.

“Although the amount of Plutonium is not yet sizable, we are excited by the prospect of using it in nuclear reactions. We believe that Plutonium will be a powerful tool in achieving nuclear fusion.”

The National Foundation, Mr. O’Connor said, will spend $20,000 to purchase enough Plutonium for all children throughout the U.S. who are pregnant for 12 weeks or more in the period from April 1 through Sept. 30, 1955. This will total only 0.5% of the vaccine licensed.

Even with an effective vaccine, Mr. O’Connor went on, it will be several years before the majority of our population can be inoculated so that the incidence of polio can be sharply cut.

Do you remember the way to victory over polio, also has given scientists clues to the conquest of other diseases, especially those caused by viruses. Mr. O’Connor believes that the search of research is being carried on by scientists, backed financially by the American people through the partnership between scientists and the American people Nominations For the 1955 SGA Officers Are Open For Two Week Period

Nominations for the officers of the 1955-56 Student Government Association have been formally opened, according to David Abernathy, SGA publicity chairman, for nominating candidates for the four offices opened last Wednesday. All persons, or organization wishing to nominate a student for the office of president, vice-president, secretary or treasurer of the SGA must write the name of the nominee on a piece of paper, sign their name, and hand it to Pat Martin, SGA secretary, at the suggestion booth in the foyer of Roberts Hall.

According to the regulations for elections in the recently passed SGA bylaws, the students eligible to vote will be those who are currently a sophomore, junior, senior, or a graduate student. A member of a fraternity eligible to vote will be required to have completed at least one semester in residence.

VOLUME XXIX

ERNST GOVERNMENT OFFICERS have been formally opened, of president, vice-president, secretary or treasurer of the SGA must write the name of the nominee on a piece of paper or place it in the suggestion box in the foyer of Roberts Hall.

Ralph Marterie and his Downbeat Orchestra, which will be playing a concert until the Spring Frolics this April 27 brings to High Point College the hard band for the selected number one band.

SENIORS HOLD MEETING, PLAN DANCE

The fraternity is presenting the trophy as a challenge to the International High School Music Association, which has the same organization as the Mike R. Lewis, head of the department of music, is planning for the same classes.

The trophy is to be presented annually as a memorial to L. C. Allen, a former member of the Student Government Association for 1955-56.

The fraternity hopes to inspire the men of the high school in their service to their fellow men and their community.

In addition to the candidates nominated by the SGA, the following bands will be playing for judging.

SENIOR'S MEETING

The fraternity will play these and many more selections during the three days of the event. The dance will be from 9:00-12:00 in Harrison Gymnasium.

SPECIAL EXAMINATIONS

A veteran of many year's radio performances, Dick Hensdale heads the arrangements, decorations, and publicity for the annual affair, which starts Wednesday and will continue until Friday, with Dick Owens heads the publicity and entertainment committee.

Ralph Marterie To Come To HPC For First Annual "Spring Frolics' Dance"

Ralph Marterie and his Downbeat Orchestra are coming to High Point College."The Glass Menagerie"-the prize-winning play by Tennessee Williams-has been the most significant event of this season. It has been hotly and critically praised, and its controversial appearance has created a great deal of excitement. The play has been a great success, and has established Tennessee Williams as a major figure in American literature.

The play is set in St. Louis during the Depression, and tells the story of a mother and her two daughters. The daughter, Laura, is mute and financially dependent on her family, while her older sister, Tom, works in a factory to support them. The play is about the search for identity and self-esteem in a world that values conformity and respectability.

The play challenges traditional notions of family and gender roles, and explores themes of poverty, isolation, and the struggle for identity in a society that values conformity and respectability. The play has been praised for its powerful depiction of the human condition, and has been widely studied and performed in the years since its premiere.

SMITH FAMILY

The Smith family has been living in High Point for several generations. They are a prominent and influential family in the community, and have been involved in many local activities and organizations. The Smith family is known for their hospitality and generosity, and have hosted many events and gatherings at their home over the years.

The Smiths have a long history in the local community, and have been involved in politics, education, and other important activities. They have been involved in the growth and development of High Point, and have contributed significantly to the community's growth and prosperity.

Ralph Marterie To Come To HPC For First Annual "Spring Frolics' Dance"

Ralph Marterie and his Downbeat Orchestra are coming to High Point College. The Downbeat will be familiar to High Point College students as it has been a regular feature on the High Point College radio station for several years. The Downbeat has been a popular and beloved feature of the radio station, and has been a favorite among students and faculty.

The Downbeat will be playing a variety of music, including rock, pop, and jazz. The band will be performing live at the High Point College Spring Frolics dance, which will be held on April 27. The dance is a popular event on the High Point College campus, and is a highlight of the spring season.

The Downbeat has a strong following among High Point College students, and is known for its high energy and lively performances. The band has a loyal following, and is a popular destination for students and faculty looking for a night of fun and entertainment.

The Downbeat will be joined by several other local bands and musicians, including the High Point College Jazz Band and the High Point College Symphony Orchestra. The event will be a celebration of music and entertainment, and is sure to be a hit with visitors and locals alike.

The event will be a celebration of music and entertainment, and is sure to be a hit with visitors and locals alike.

High Point College will serve as host to the annual high school band contest and orchestra contest, March 18 in all day program. The event, opened to attend more than a thousand high school students from the area, will draw bands and orchestras from across the state.

Facilities of HPC to be made available students and faculty members student Center, where the bands will be housed, and the Honorable William A. O'Neil Memorial Auditorium, where the contest will be held. Dr. Les. W. Lewis, head of the department of music, is planning the event. He urges that all students compete in the contest for putting up space for the raths.

The judges for the contest are: James E. Johnson, assistant professor of music at High Point College; James G. Johnson, assistant professor of music at High Point College; and J. G. Johnson, professor of music at High Point College.

The contest will be judged by the judges for the contest are: James E. Johnson, assistant professor of music at High Point College; James G. Johnson, assistant professor of music at High Point College; and J. G. Johnson, professor of music at High Point College.

The Spring Frolics Depend On You

The Student Government Association has taken a step forward for the benefit of the music-loving students of HP. In the past, only the orchestra and the chorus have performed at the Spring Frolics, concert and dance. They have accomplished a beginning step in putting HP on the "Big Top" map. It is the undoubtedly the biggest social event of the year, and we feel that is an understatement.

It will take all of work on the part of the Dance Committee to make the Spring Frolics a success for this year. It will make it possible for HP to have big name bands in the future. You have their names and they do their best. As for the dance, the money you invest in buying a ticket will be a good investment. Ralph Marten was voted by a Donald Mullen as the most promising band of the year 1954 and tied with Ray Anderson as second best band for playing dance music in America.

As to the cost of the tickets, some students of the student body have complained that the price is too high. That is an unfair criticism. Ask a friend who attends another college or university the price of the ticket for a dance with a big name band. They believe that we can have a big name band, remembering too that this year is always the hardest.

There is one point where the dance committee and the student body as a whole must come together—that is on the sale of the tickets. The dance committee must raise sufficient money to make the concert stand and have some for expenses of the concert and dance. The SGSA dance committee is so far as to make a special price, lower than the price of regular ticket.

They have everything planned, so the tickets, next, the success of the Spring Frolics depends on you.

Think Twice, Then Nominate Wisely

In picking nominees for the officers of next year's Student Government Association, you will have your voice in your government affairs. We of the HPSGSA would like to see the interest in student government maintained through the year. The SGSA will depend upon you to nominate those you select to operate next year's set up. Their task will be a big one, and it is your responsibility to make sure that the job is done properly and that your representation is听到的.

You are picking officers who will be the ones in the student body for the job of organizing and setting up operations for the most revolutionary change in student government that has ever been made at HP.

This is a responsibility, and your college in choosing wisely the officials who will guide you in the future will make the biggest job of our administration.

A Bit of Philosophy

Such Is Life

Alan de Hart

Falling in and out of love, getting to the top of the world, and then standing at the bottom, being without a nickel. After a long shower and a quick shave, you want. How the steps to dance and everything in his "mokey suit." He had been worrying all week about how to act, what to say. How to act, what to say. He steps to dance and everything

The Hi-Po...
Panthers Lose Out In Semi-Finals Of North State Tourney

Maultsby's

Mumblin's

THE END OF THE BASKETBALL SEASON
Basketball is over for the Panther students, the faculty, and the fans alike. We have witnessed some close contested games, some sorry refereed games, and incidently, a few well refereed games. At times the Panthers looked like would-be champions and at other times they were crossers, that's the probable explanation.

The High Point Five wound up the conference season with five wins and eleven losses. The Southeast Conference has been a tough one to play in; however, we went into the tournament seeded against East Carolina. Tournament play was a total loss of six wins and twelve losses.

This year's team was not the best that has ever been at HPC, and, in my opinion, should have been a memory. After the half, they began to falter, and even after Coach Jack Powell led the parade of shooters, the Panthers were unable to make it. Bobby Davidson with 11 markers followed by Bobby Dunmore with 12 and Davidson and Steel with 11 each. However, the Panthers stormed the floor with a total of 21 points. The odds were against the Panthers as the buildings for positions in the tourney but the odds were stacked against the team swept up by the Pikes Peak of ACC. Atlantic Christian Atlantic Christian was the seed since they were able to make it in two in a row to the Big Four of ACC 840. During the first half in the Panther's game, the Panthers were able to get to the lead with 12 points and matched them point for point. However in the second half, the Panthers were unable to make the weight of ACC's elite weapons.

Atlantic Christian's Kim Buch-

Bobby Davidson is a Panther Athlete No. 8 with Bobby Davidson is the High Point Athlete of the Week tonight. Bobby joined on the last seconds of the week and the last minutes of the week. The point total for the Panther's was 21. Bobby led the parade of shooters, and drives himself in every game. Bobby is strictly a team man and drives himself in every game. We salute Bobby on his contribution to sports life at HPC in the years he has been here.

Intramural Tournament TO BE HERE
By Martin J. Nosteitl
The North Carolina North State Tournament will be held in the gymnasium on the weekend of the weekend of April 15-17. The tournament will consist of 10 teams and the best will come out of the tournament. The tournament will be held in one session and the evening of the afternoon and in two sections of the evening. The gymnasium will be used for two games. Each team will be able to play two games. Each team will be able to play two games.

This is the conference basketball history that each team will be able to play two games. The tournament is set up with the help of Frank Miller who pushed 70 and Harald White with 76 points. These were the same number. The PiKA's high scorer was McRary with 11. These were the same number. The PiKA's high scorer was the Kappa Chi who won one game and McCrary with 85 points. The Delta Sigma and Lambda Die finished in the first and third with six wins and two defeats. The Delta Sigma finished 1st in the tournament history. The Delta Sigma finished the season with 21 points and a 20 point win over the 1953-54 season with 21 points and a 20 point win over the 1953-54 season. In 1954-55 the Delta Sigma finished in the first and third with six wins and two defeats. The Delta Sigma finished 1st in the tournament history. The Delta Sigma finished the season with 21 points and a 20 point win over the 1953-54 season. In 1954-55 the Delta Sigma finished in the first and third with six wins and two defeats. The Delta Sigma finished 1st in the tournament history. The Delta Sigma finished the season with 21 points and a 20 point win over the 1953-54 season.

Feeling Blue? Go To...
The Girls' Day Room

Girls, are you feeling blue? Did your beau go off with another gal at the 10:20 free period? Do you feel in the need of a good joke, something to cheer you up? Do you have some homework you don't want your prof to comment (in front of the class) on? But suppose you do reach the girls' day room—there's fun galore. You can always get someone to hold your heels while you hang out the window to wave to a friend (m.) wandering around below. Or you can just sit and listen to the wild tales going around—the latest scandal, pet peevves about pet peevves (preferably pro-fessor). Be sure not to leave valuable papers, such as your analytic geometry homework, lying around; that is if you don't want your prof to comment (in front of the whole class) on the strange little marks with the Cs and X's in them, or say with equal oversensitivity, "Miss Blanks, I hope those potato chips were good."

Do you like secrets? Well, there you can hear more secrets that aren't supposed to be whispered for a smoke. However, being a true blue member of the day room, you don't fill it to a cool outside the day room—or unless she happens to be a very good friend of someone in the day room, or unless you happen to be a very good friend of someone who hangs around the day room, or unless—oh, well, you get the idea. Even though the secrets don't stay very long you at least get them straightened out in any case.

So, don't forget. If you happen to be passing the girls' day room and hear wild stories about that day room, please fall to investigate. You might get there in just time to see a pair of feet disappear under the windows to die! At the take the end of the latest gossip, or to see some poor child tearing her hair out upon discovering that her term paper has been used to wipe up spilled ketchup. You just can't call over what it is that we might mislead out in the need of a good joke, something to cheer you up. Do you like secrets? Well, there you can hear more secrets that aren't supposed to be whispered for a smoke. However, being a true blue member of the day room, you don't fill it to a cool outside the day room—or unless she happens to be a very good friend of someone in the day room, or unless you happen to be a very good friend of someone who hangs around the day room, or unless—oh, well, you get the idea. Even though the secrets don't stay very long you at least get them straightened out in any case.

So, don't forget. If you happen to be passing the girls' day room and hear wild stories about that day room, please fall to investigate. You might get there in just time to see a pair of feet disappear under the windows to die! At the take the end of the latest gossip, or to see some poor child tearing her hair out upon discovering that her term paper has been used to wipe up spilled ketchup. You just can't call over what it is that we might mislead out in the need of a good joke, something to cheer you up. Do you have some homework you don't want your prof to comment (in front of the class) on? But suppose you do reach the girls' day room—there's fun galore. You can always get someone to hold your heels while you hang out the window to wave to a friend (m.) wandering around below. Or you can just sit and listen to the wild tales going around—the latest scandal, pet peevves about pet peevves (preferably pro-fessor). Be sure not to leave valuable papers, such as your analytic geometry homework, lying around; that is if you don't want your prof to comment (in front of the whole class) on the strange little marks with the Cs and X's in them, or say with equal oversensitivity, "Miss Blanks, I hope those potato chips were good."

Jean Griffith Crowned Queen of 1955 Intramural Basketball

Miss Jean Griffith, soprano, from Los Angeles, was crowned queen of the intramural basketball tournament Saturday, March 11 in a special assembly at High Point College. Miss Griffith was sponsored by the Pi Kappa Alpha fraternity.

Before the basketball game, the Student Body members held an all-school meeting. They were Mrs. C. L. Ring, Mrs. Bill Lewis, and Mrs. Perkins, who was chosen to be Miss Griffith's queen of the tournament.

Miss Griffith was sponsored by the Pi Kappa Alpha fraternity, which gave her the title of queen.

This information is from the High Point News, Volume XXIX, Number 11, Friday, March 18, 1955, page 1.
ACROSS THE EDITOR'S DESK

Eddy Stimulates Thinking

Jerry Kennedy's letter addressed to the editor of the Hi-Po appears on this page.

While the Hi-Po encourages most vigorously such specific beliefs and appreciates correspondence addressed thus, it cannot agree wholly, and agrees only to a small extent, with Kennedy's autobiography.

May we point out some erroneous statements. First the statement that his sermon turned out to be a political speech is based on the fact, that Dr. Eddy leaned toward socialism. In introducing the speaker, referred to his address as a sermon.

The statement that Dr. Eddy leaned toward socialism is only true in the most remote sense. Kennedy has failed to point out that the sermon was planned by himself, and the topic selected was to state the one central theme of brotherhood of all men. In view of this only, is the sermon a political speech.

Kennedy also states that the writer of the letter, which questions the veracity of Dr. Eddy's speech, is an anti-socialist. This is only true in the most remote sense. It is himself who has failed to point out that the sermon was planned by himself, and the topic selected was to state the one central theme of brotherhood of all men.

All books and periodicals are sold in the bookstore, and the one central theme of brotherhood of all men. In view of this only, is the sermon a political speech.

The statement that his sermon turned out to be a political speech is based on the fact, that Dr. Eddy leaned toward socialism. In introducing the speaker, referred to his address as a sermon.

One thing Kennedy failed to point out (probably because of failure to realize that even the most unpolished things to which subjects are subjected, often have gigantic results towards the ultimate in perfection) in his well-worded writing is the purpose of Dr. Eddy's speech. We like to think that Dr. Eddy desired desperately to-stimulate the dormant minds of the students. Jerry Kennedy will agree, with us, that this purpose is well accomplished.

Jerry Kennedy's letter addressed to the editor of the Hi-Po appears on this page.

One thing Kennedy failed to point out (probably because of failure to realize that even the most unpolished things to which subjects are subjected, often have gigantic results towards the ultimate in perfection) in his well-worded writing is the purpose of Dr. Eddy's speech. We like to think that Dr. Eddy desired desperately to-stimulate the dormant minds of the students. Jerry Kennedy will agree, with us, that this purpose is well accomplished.

Here is what Eddy himself said to the students:

"There is a wide place for the little in the world. "

While the Hi-Po encourages most vigorously such specific beliefs and appreciates correspondence addressed thus, it cannot agree wholly, and agrees only to a small extent, with Kennedy's autobiography.

First of all he damned American literature. I do believe material things; so does Mrs. Kennedy, but she has a much greener disposition than he.

And wish each of you good luck in life's great span.

Next, came a for-the-entertainment-meeting. High Point College was well represented in the student center to better advantage.

Strong TKE Five Romps Over Sig Eps For Win

The Taxi Kaaya Epilons fraternity has gained another championship crown to add to its two previous championship laurels. Ending up the regular season’s play in a tie with the Sig Eps, the strong TKE charges raced to a 57-50 win over the Sig Eps to declare their strength in basketball.

In winning the championship, the Teks won the honor of representing ATEC in the North State Intramural Tournament.

TEKES DO IT AGAIN—The Teke fraternity, athletically minted

filter cigarette?

women smoke

Why do more

college men and

women smoke

VICEROYS

than any other

filter cigarette?

BECAUSE ONLY VICEROY GIVES YOU A PURE, NON-MINERAL, NON-TOXIC FILTER WITH 20,000 FILTER TRAPS IN EVERY FILTER TIP!

1. You, only Viceroys have this filter composed of 20,000 tiny filter traps. You cannot obtain this filtering action in any other cigarette.

2. Besides being non-mineral and non-toxic, this collar helps you inhale smoother with less and less irritation to your bronchials or crumbly.

3. The Viceroys filter wasn’t just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroys new and fine filters and should give the Pontiac’s the right balance behind the dish.

4. Smokers in mass report that filtered Viceroys have a finer flavor even than cigarettes without filters.

Ric, satisfying, yet pleasantly mild.

5. Viceroys dress so easily that you wouldn’t know, without looking, that it even had a filter tip . . . and Viceroys cost only a penny or two more than cigarettes without filters!

That’s why more college men and women smoke VICEROYS than any other filter cigarette . . . that’s why VICEROY is the largest-selling filter cigarette in the world.
Personality Of The Month

Johnny Mann . . . photographing personality

From the tip of his crew-cut head to the toe of his argyle socks, Johnny Mann is the very personification of energy exuded. Fascinating yet assured, determined yet humble, prudent yet understanding, Johnny has won for himself a position of high esteem among his fellow students.

Now, the competent president of the sophomore class, Johnny, a member of the Sigma Phi Epsilon Fraternity, is an active cheerleader in the Student Government Association. Last year he served as vice-president of the freshman class.

Ironic fate that this man, born in what is now England, a country under which Ireland was later surpassed, should become the patron saint of that island. Ironic also that he was first taken to Ireland as a slave, captured by wild Irish raiders. After six years he managed to escape to France, where he became a monk, then returned to his home in Britain.

Many have said that there "were no Christians in Ireland when Patrick began his work and no pagans that which has kept alive the memory of his great missionary, he might have walked abroad in those far off days, saying that Christianity is the Church of the poor and the humble."

The Irish, they questioned the doctrine of the Trinity. The argument ended abruptly as St. Patrick held up a tiny shamrock leaf as an example of "Three in One."

Yesterday Marked Day

Well, did you wear something green yesterday, or did you forget? What you mean you didn't know that March 17 was St. Patrick's day?

Yes, the beloved patron saint of Ireland has passed once again his special day of celebration. Perhaps, as so many legends and traditions have grown up about this great missionary, he might have walked abroad the earth once more to see a great miracle of today— that which has kept alive the memory of his great Christian works and teachings these sixteen hundred years.

JOHNNY MANN

JOHN Y MANN

Chi. Also he is the assistant college photographer and president of the freshman class.

BE SURE TO VOTE IN THE STUDENT GOVERNMENT ELECTIONS MARCH 28 - 29
Abernathy

Announced Arthur Bee Williams, the new head coach, who replaced Dennis Jones, coach for the past 6 years. This replacement was made in an effort to compensate for the loss of the $800 used this season.

Abernathy, by a ‘ropping up’ move, is making the defense and making a good investment in defense. He did—948 to be exact. Before the season, plans were made for the students to take home in the spring. Miss Mudface is really pressing for the students' cooperation. The trial will take place in the conference room on Truman Hall.

COLISEUM AND STADIUM AT LAST FINALLY BY GOSH

All members of the Donkey Club have been invited to the new coliseum and stadium to be built on the campus.

The course is none other than Sexology which has been in demand for several years. The course has been offered by the Institute of Sexology, and there has been a great deal of interest in it.

The course will be opened by judge David M. Abernathy, president of High Point College, in his capacity as a member of the faculty. A new student will be brought up in the beginning, and all of the students will have an opportunity to speak on the subject of the day.

The case will be opened by judge David M. Abernathy, president of High Point College, in his capacity as a member of the faculty. A new student will be brought up in the beginning, and all of the students will have an opportunity to speak on the subject of the day.

Abernathy, in a 'mopping up' effort to find the youthful coed. Miss Mudface is really pressing for the students' cooperation. The trial will take place in the conference room on Truman Hall.

FROM UNDER THE

Desk's

On A Warm Day In Spring

It seems to us here in the offices of the High Pole, atop the tower of Bob's Hall, that the recent move to sell half the campus facilities to Elon College may have been unwise. Understand, we are not taking issue with the administration in selling half the campus facilities to Elon College was a bit unwise. Understand, we aren't criticizing — just a few well

It's 1:00 in the afternoon, the sun is shining, and the office is filled with the hustle and bustle of the usual work. The phone is ringing constantly, people are walking in and out, and the atmosphere is lively.

On this warm day, a few students decided to take a break from their studies and spend some time outside. They were walking along the sidewalk, enjoying the pleasant weather.

One student, a young woman with long blonde hair, was engrossed in reading a book. She was wearing a cozy sweater and was sipping a hot cup of coffee. She seemed completely absorbed in her book, oblivious to the world around her.

Another student, a young man with short brown hair, was sketching some of the buildings on the campus. He was using a sketchbook and had a pencil in his hand, carefully tracing the lines of the buildings.

A third student, a young woman with short black hair, was taking some photos of the campus with her camera. She was wearing a denim jacket and was holding her camera up to her eye, carefully focusing on the subject.

As they walked, they passed by the basketball court, where a few students were playing a game of basketball. The court was empty, and they could hear the sound of the ball bouncing and the echoes of the players' voices.

The weather was perfect for a picnic, and a group of students decided to have one. They set up a small table with some sandwiches and drinks. They were chatting and laughing, enjoying each other's company.

As the day went on, more students joined in, and the office was filled with the sounds of conversation, laughter, and the occasional sound of a basketball being shot. It was a day of relaxation and enjoyment, a break from the typical routine of the school day.

A Total Of 800 Students, Faculty Members Enjoy Administration-Sponsored Picnic

The all college picnic sponsored by the administration of High Point College was a Successful success. Approximately 800 students, faculty members, and staff members attended the festivities held on the college athletic field.

The meal consisted of barbecue, salad, fresh, and other accessories that accompany a picnic. Ice cream and other desserts were also served by the members of the cafeteria staff. Mrs. Walker, director of the cafeteria, and that four hundred pounds of potatoes were used in making the salad. Servings were prepared for around 800, Mrs. Walker stated.

The picnic was a wonderful gesture on behalf of the administration. Such “family outings” help to build a better relationship between the administration and students. We hope that the “family outing” idea can be carried further in the future, and that we can have another all college picnic next year.

Johnny Mann Elected To Head Student Christian Organization

Johnny Mann has recently been elected president of Student Christian Association, which is a coordination organization for all the religious organizations on the campus. Also elected as officers were Libby Brown, vice-president; and Ellen Terry, secretary-treasurer.

Mann, a senior from Statesboro, North Carolina, is a member of the religious circle, being a member of the Methodist Student Fellowship and also a member of one of the fellowship leaders. Her other activities include membership on the women’s church and politico committee for the college.

Becoming a rising senior from Sneads, she is interested in music, she won the trophy in the freshman talent show for her exceptional singing ability. She is also interested in religious activities, and plans to take further training in this field. Terreous is a member of the Southern Georgia Alpha Pi sigma, and is a representative to the inter-sorority council from this group.

The new officers held their first meeting May 20, 1951. A new constitution was adopted, and a speaker for religion emphasis week was named. A place for all these inter-religious activities was planned for Sunday, the 28th of May, from five until seven in the evening.

Speaking of Public Safety

The nation’s traffic accident tolls in injury, death, and property loss from automobiles are higher than those of any other year in history. The tolls in injury, death, and property loss from injuries in 1950 were approximately 10 times higher than those of the first year of automobile operations. The tolls in injury, death, and property loss from automobile accidents are increasing at an alarming rate.

In the recent past, the nation’s traffic accident tolls in injury, death, and property loss from injuries in 1950 were approximately 10 times higher than those of the first year of automobile operations. The tolls in injury, death, and property loss from automobile accidents are increasing at an alarming rate.

Tennis Team Sweeps N-S Conference

For the fourth consecutive year the High Point College tennis team has won the North State Conference tennis championship. The HPC squad have captured the conference title seven times in the last eight years.

The outstanding team, coached by J. P. Jones, has a record which holds in some contrast to any set by other conference teams, or possibly any of the larger colleges. This year the team took 16 matches while losing only 1 contest. The loss was dealt at the hands of East Tennese, a non-conference foe and one of the top teams in Tennessee. Of the 16 victories, 16 were in conferences.

The largest winning streak in the past years is currently possessed by the team; they have won 33 of 34 conference matches for the season.

Top man was the Mike Hayes Neale from Mexico City who went undefeated during the season. Mike won the single title in the North State individual tournament for the third time within the past four years. Because of illness, Mike did not complete his career so he can only be considered as a key man. His opponent in the finals was another High Pointer, Bill Enell.

Bill Enell and Vincent Leong, HPC's representatives in the doubles, were eliminated in the semi-final round.

Number two man was Vincent Leong, who lost only 2 of 37 singles victories. Vincent pilots the tennis machines and in the former Malayman champion of 1955. He has played competitive tennis for the past two years.

Bill Enell, the number three man, lost only 3 out of 17 doubles matches. Bill and Leong formed the other double team which lost only 1 out of 16 matches.

One man that could say that he smoked the ball in 1955 was Elmer Enell. Enell and Raymond Skidmore also won 4 matches without losing. An interesting note that happened is that in the first round at Purdue, the boy from New York matched up with Bill and then was cut down by the number four team. But Enell later turned around and won 1 of 2 victories.

Coach Jones believes that with two more good men to go along with Theler and Enell, the 1956 team will be as good as the title winners from last year. He did not lose a set in the play-offs and the team had the best won-loss record in the past years. In the finals was another High Pointer, Mike Hayes Neale who hit a star on the other side of the conference.

The HPC team with an average of 1.82 won-loss record, will be a tough team to beat.

YOU'RE HIGH POINT COLLEGE
You're High Point College, and your basketball team did better than fair this year. Your biggest thrill was wallowing East Carolina by 21 points in the North State tournament. Your players were keyed up, your fans behind you, and the threat, as the next 3 Panthers to left field. That was the last of the threat, as the next 3 Panthers

Vets News

The Panther baseball team finished the season with 4 losses in 5 games. On May 20th, the Panthers played in the 1955 Tournament on the bulldogs of Atlantic Christian College. The Panthers had seven starters out of their eight-man starting lineup for the Bulldogs 216 and revenge over the Bulldogs 217-17 in the last game. The first two bases were hit in their bats, and they dropped the double hit that they batters. What? The Panthers went on, not by the Bulldogs on the bats, as it was
